## BODIES OF RAILROAD MEN DROWNED IN LITTLE RIVER RECOVERED TUESDAY

The bodies of Maynard F. W. Robinson and F. W. Leatherberry, officials of the Santa Fe railroad, who were drowned Sunday afternoon, were recovered at 7 o'clock Tuesday morning. The bodies were discovered floating down stream by Leo, Paul and Gus Laake, who reside near the city and who were engaged in searching for the bodies.

The bodies were taken to Temple immediately by special train. The two men had been unaccounted for since about three o'clock Sunday afternoon when searching parties began to look for them after the boat in which they were inspecting the Santa Fe trestle had capsized. This search was continued throughout Monday and Monday night and hope for the recovery of the bodies was practically abandoned.

Aeroplanes and motor boats were used in the search. Monday night the searchers combed the stream until daybreak with the aid of tar flares set along the wrecked trestle.

Mr. Robinson was master mechanic of the Southern division of the Santa Fe lines out of Temple and Mr. Leatherbery was division engineer.

The hunt for the missing men never ceased from Sunday afternoon until Tuesday morning when the special train that brought back the bodies also brought in a score or more of worn, fatigued searchers who had spent hours in diligent hunting.

Leo, Gus and Paul Laake, three farmers living near the Little river at Cameron, found the bodies at an early hour Tuesday morning three-fourths of a mile down the stream from the bridge where the fatal accident occurred. Both were fairly close together. It was believed that they had been lodged near the bridge and had just risen to the top and started floating down the stream when discovered because the river was full of men watching for any signs of the missing men all night.

Condition of the bodies was said to strengthen the belief that the two men were either killed or stunned into unconsciousness by being hurled in their small boat against the ballast deck of the steel trestle in the swift current. Several of the searchers who were present when the bodies were recovered said that it was possible that Mr. Leatherberry's notebook, which was found on the bridge, was thrown there in the impact.

Santa Fe offices here were closed Tuesday afternoon for the funeral of Mr. Robinson which will be held at 4:30 p. m. The time for Mr. Leatherberry's funeral had not been set, pending word from his relatives in Virginia.

Early Monday morning requests came from Santa Fe officials for the services of a Daily Telegram airplane to aid in the search for Maynard Robinson and F. W. Leatherberry, and after some delay in getting the machine groomed for the hazardous flight over the flooded area, the big ship took the air at about 11 a. m., in charge of Pilot Roy Sanderford of Belton.

With a three-hour fuel supply, the ship proceeded first to the scene of the tragedy, and then for more than two hours it skimmed up and down the stream, from the ill-fated bridge to a point five or six miles below, returning to Temple about 2 p. m. for fuel, as there is not a possible landing place anywhere in the flooded area, or between Cameron and Temple. At 4 o'clock, after replenishing the fuel tanks, the ship again set out on its mission, this time with D. M. Tooke of the Telegram staff in the observer's seat, and for another three hours observer and pilot, aided by powerful binoculars, swept every foot of the river on both side for a distance of thirty or forty miles, flying low down to the Brazos below the mouth of Little river. Skimming just above the raging torrent in midstream (which was some three miles wide at that time) or zooming closely over the tree-tops along either bank, the intrepid airmen scanned every floating object, every drift and every tree along an area of a hundred square miles.

**Deplorable Devastation.**

They reported hundreds of dead animals floating in the stream or lodged

(Continued on page 3)

## ROADS OF COUNTY STAND UP UNDER BIG FLOOD TIDES

DAMAGE SMALL COMPARED WITH MILEAGE OF PIKE ROAD IN COUNTY.

BY GILES L. AVRIETT
County Auditor

Estimated damage to the roads and bridges north of the Little River, including the bridges on Little river, from five to six thousand dollars.

The Marlow bridge on Little river approach on east side has fallen in.

The long approach on the north side of the McCown bridge on Little rivver was washed out. A good portion of same has been located and can again be used in the construction of new approach. This approach was 180 feet in length. Most of the piling supporting the flooring was left standing.

The Holtzclaw bridge over Little river was damaged only slightly and is passable, however, the 150 viaduct west of the Holtzclaw bridge was carried away and has not been located. Also a 40-foot bridge just west of the viaduct was washed out, but practically all the material can be used in replacing new bridge.

The Norman Valley bridge has a considerable amount of flooring missing. On the Ad Hall road south to Norman Valley bridge, a steel bridge this side of the D. K. Hall place has been washed out, rendering this road impassable.

The bridge over Little Bear Creek on the Holtzclaw road washed out, caused by the embankments on each side caving in. Most of the material in this bridge can be used again. A temporary structure has been built just east of the old bridge and is now open to light traffic.

On the Cameron-Ben Arnold road the approach on the south side of the bridge on Elm Creek, consisting of 72 feet, was washed out and has been located near the Elm Creek bridge on the Maysfield road.

All the bridges on the Maysfield road, except a small bridge just east of the Walker's Creek bridge are in tact. Commissioner Reeves heports this bridge now constructed.

Commissioners Butts and Reeves will commence the replacing of the bridge on the Cameron-Ben Arnold road on Thursday.

On Thursday morning the Commissioners Court will open bids for the

(Continued on Page 4.)

## MAYSFIELD PLANTERS RESCUED AFTER 24 HOURS IN TREE TOP

PERILOUS JOURNEY MADE FROM CAMERTON IN ROW BOAT TO SAVE MEN.

After having spent 24 hours in tree tops in the valley of Little River near Maysfield, Hubert Atkinson, H. L. Yager, and Joe Foster were rescued Sunday morning by B .P. Atkinson and Grady Little of Cameron at the cost of many hours on the perilous crest of the flood in a small row boat.

In going to the rescue of the three marooned men a fourth man, giving his name as Porter was accidently discovered in a small tree top and saved.

On receipt of telephone message Saturday night that his brother and the other two men were in the bottom land in trees, B. P. Atkinson of Cameron and Grady Little, expert boatman, set out by truck to the Elm Creek which they negotiated in their small craft, and thence to Walker's creek, hiring transportation between streams, and in the manner crossing all streams reaching Little River at about 2:30 a. m. Sunday.

At day break, weary and exhausted, the men put out to sea in their row boat. It was to be a hazardous trip, some five miles to fight the current and already weary from the journey to the river from Cameron. But the men, exhausted and harrowed by dangers, reached the shaky little trees about noon and rescued the farmers.

Forethought had provided hot coffe and food for the men, but although they had spent 24 hours on a small branch of the trees and were hungry and worn, they refused to take food until they had again put foot on land.

The work of rescue was a courageous undertaking. The men were caught by flood waters while saving stock in the bottom lands.

## FLOOD HOLDS UP DRILLING IN FIELD OF MILAM COUNTY

ACTIVITIES WILL BE RESUMED AS SOON AS ROADS ARE CLEARED FOR USE.

BY E. E. SULLIVAN

With all of the drilling rigs shut down, development in the Minerva field has been at a standstill since Saturday on account of the recent flood. Oil men are making preparations to resume drilling as soon as the roads open to the field. There were no losses of drilling rigs reported uptodate, but it is thought that several storage tanks and tool houses were carried away by the flooding waters of the San Gabriel and Little Rivers. The rig of Bell & Haines was reported to be partly covered by water and the drilling crew of this rig has been marooned on the Rice farm since the river began rising. Nearly all of the oil men were in Cameron during the rain and were fortunate in getting in from the field Friday evening. It was reported that the wells of the Oklahoma Bell Oil company on the Robert Issacs and Ben McClellan tracts were under water, also the well of the Texas Plains Oil Syndicate No. 1 Neihous. No damage was done to these wells as they were protected and water tight on ton, being equipped with a casing head control which fits on the top of the surface casing.

The San Gabriel Oil and Gas company No. 1, Brown, on the east bank of the Gabriel river south of the Bauer well is reported under water, ust how much damage has been done to the hole has not reached Cameron, as no one has been able to reach the field on account of bridges being carried away. There has been no way of learning just how much damage was done in the field by the flood, but hope is held out by the oil men that

(Continued on page 3)

## COUNTY HEALTH OFFICER WARNS AGAINST DISEASE

DR. THOS. J. DENSON CALLS FOR RIGID SANITATION FOLLOWING FLOOD.

Measures of precaution against the possible spread of disease in the county from unsanitary conditions resulting from the floods of last week have been taken by County Health Officer Dr. Thos. J. Denson.

Suggestions for measures to be taken to avoid spread of disease are contained in a bulletin issue to the people of Milam County by Dr. Denson Thursday. The conditions obtainingin certain sections of the county sugest the wisdom of rigid sanitation at this time. Dr. Denson has acted wisely in thus safe-guarding the health of the county.

**Mrs. John M. Hefley Ill.**

A telegram reached Cameron this morning stating that Mrs. John M. Hefley of Cuttington, Ga., is seriously ill and not expected to live. Mrs. Hefley is well known in Cameron and has many friends here. We hope that she will be improving when word is received again.

## 'Fatty Arbuckle and Else' Subject for Local Sunday Sermon

"Fatty Arbuckle and Else."

That is the subject announced by Rev. Ira F. Key, pastor of the Methodist church for the Sunday night service.

Sunday morning the subject will be "Lukewarm Christians."

The name of Fatty Arbuckle, corpulent comedian of the movies, has been flashed in screaming headlines across the front pages of practically every newsper in America as a result of the sensational and scandalous developments surrounding the death of Virginia Rappe, screen beauty, for which Arbuckle is being held by Los Angeles police.

The Rappe girl was found in a dieing condition in the apartment of the screen star where she had gone with a party of friends for a 'gin jollification.'

The public will be interested in what Rev. Key has to say in his sermon. Being a good speaker and a resourceful preacher he will make of the incident a cudgel with which to batter down some of the idols of a pagan world.

## Rockdale Rescuers Search for Missing Men On Gabriel

At daybreak yesterday a picked company of 50 men volunteering their ervices for work in the bottom lands of the Gabriel and Little rivers, began a search for the bodies of Bailey Turner and H. C. Sullivan, large planters, who have been missing since last Friday night.

Tuesday the city of Rockdale was closed and the citizens, as many as could go, went into the business of rescuing bodies from the lowlands and aiding storm victims.

Mayor H. C. Meyer was offering a reward of $50 for the recovery of the body of H. C. Sullivan yesterday.

In a telephone message to The Herald from Editor John E. Cooke of the Rockdale Reporter it was said that only four known Rockdale people were drowned in the flood. Many bodies have been recovered in that section but all are said to have come from other sections of the country.

The only body recovered of the four who are known to have drowned was that of a young white man said to have come to Rockdale several weeks ago and was engaged on the Ed Green farm. The body was burried in Rockdale Tuesday night.

Judge E. L. Ramsey of Thorndale was in Cameron Tuesday on his way from Waco. He will move to Waco in November, having purchased a home there. He has been a resident of Thorndale for 20 years and was former editor and owner of the Thorndale Thorn.

205 is our Phone number.
MIDDLETON & THOMAS.

## Gravel Haulers Wanted at Marlin

I am in receipt of the following notice from Cook & Arlington, road contractors now building roads near Marlin, Falls County, Texas.

"Wanted by Sept. 21, 1921.

"200 wide tire wagons to haul gravel. Average 40 and extreme haul 53 quarters. If you want to haul, be here by above date.

"Cook & Arrington,
"Marlin, Texas."

I am not informed as to the price being paid by this firm for this work, hence would suggest that you communicate with them or their foreman at Marlin, Texas, before going there to haul.

GILES L. AVRIETT.

## FLOOD AND STORM TAKE HEAVY TOLL

Total loss from the flood and storm in Milam county will reach $5,000,000 according to conservative estimates made since reports began to come in from over the county.

It is feared that crops will suffer a loss of from 25 to 35 per cent and more, and property damage cannot be fully estimated at this time.

Little River Saturday morning reached the highest flood stage within the recollection of the oldest residents of Cameron. The water was higher by four and a half feet than during the great flood of 1913, then the most disastrous in history. The rise in Little river was approximately 45 feet, coming within the space of a few hours following cloudbursts at Taylor, flooding the San Gabriel river and around Belton, Temple and Cameron, putting Little river at the highest flood stage in history.

The river has receeded and work on reconstructing the lines of the Santa Fe railroad in the valley and across the stream, and the Sap railroad south of the river, is under way. Construction also has begun on the power lines of the water company running to the pump house which was under water from Friday morning until Tuesday. It is feared by C. W. Lawrence of the power company that the motors uesed for pumping water have been rendered practically useless by the flood waters.

The city of Cameron has been without water except one and one half hours in the morning and afternoon, these hours being respectively 7 to 8:30 p. m. and 4 to 5:30 p. m.

It is estimated that the damage toll taken by the storm can well be reckoned as follows: Flood damage, $2,000,000, storm damage $3,000,000.

The storm that brought the heavy rains and the destructive winds was first felt as far west and south as San Antonio. The storm came into Central Texas by way of Austin, Taylor, Temple and Cameron. The storm appears to have spent its fury after sweeping the Little River valley in Milam County.

The total precipitation in Cameron from 6 p. m. to 6 a. m. September 9 and 10 was 11:45. Rain fell throughout the day Saturday, as low hanging clouds rolled from the south and it is estimated that some 14 inches of rain fell here during a 24 hour period at the beinning and immediately following the storm.

H. C. Keith, agent for the Santa Fe at Cameron, estimates that approximately 3000 feet of track was washed away leading across the Little River. This included a long stretch of trestle leading to the steel bridge.

Mr. Keith says that light trains will be run across the river by Friday or a litlte later. At present daily train service is being maintained daily from Temple to Cameron west and from Houston to Milano east. Hope that full traffic will be resumed early next week is inspired by the rapid progress being made on repairs.

The San Antonio and Aransas Pass railroad trestle south of Little River was washed away by the flood waters and it will be several days before traffic can be resumed over that line.

The S. A. & A. P. is operating daily trains out of Waco and return giving mail service and passenger and freight service.

Practically all telephones in the city of Cameron were put out of use Friday night but service has been fully restored.

The Mackay Telegraph and Telephone Company suffered the loss of five through circuits and one local circuit on account of lines being washed out in the bottom lands south of town. New York and New Orleans market quotations were only delayed for the first 15 minutes Saturday morning.

A crew of 18 men are reconstructing the line across the river. All circuits are now in operation. The most important delay was on the Austin and San Antonio wires.

In the Gause section of the county only a light rain fell. In the north and northwestern parts of the county litle or no damage was inflicted by the storm. The path of the storm ran the course of Little River over a distance of about ten miles on either side, bearing north after leaving Cameron.

Considerable damage has been reported from Minerva where a 75 mile gale is said to have blown over houses and uprooted timber.

From Rockdale and Thorndale comes reports of great damage to property, with some loss of life. Four are reported dead at Rockdale and forty-five bodies recovered at Thorndale.

Despite the storm damage service has been resumed on the roads and partially on the rail lines and business in Cameron is proceeding as usual.

## Aged Woman Found In Tree is Identified as Grandma Bonner

The body of the aged woman found near the Green sawmill in the Gabriel river bottom Tuesday was identified as that of Grandma Bonner, aged 85 years, says a telephone message to The Cameron Herald from John E. Cooke, editor of The Reporter at Rockdale.

The body when found is said to have been strapped to a tree with a blanket.

Grandma Bonner resided at Green's sawmill community near Rockdale. It is believed that some member of the family tied the aged woman to the tree in a last effort to save her life and was then swept away by the current.

**NO STORM DAMAGE IN THE BAILEYVILLE COMMUNITY**

Little or no storm damage resulted from the heavy rains in the Baileyville country, according to G. W. Hairgrove residing within about two miles of the Brazos River. He said that back water from Little River created a four foot rise in the Brazos for a distance of 20 miles.

Crops are not damaged around Baileyville as around Cameron and in other sections of the county. Mr. Hairgrove says that the majority of farmers have harvested their grain crops. Owing the leaf and other pests he says chance are small for a fall crop of cotton.

## BAPTISTS TO HOLD COUNTY MEETING HERE IN NOVEMBER

MISSIONARY ASSOCIATION TO HOLD ONE DAY MEET WITH CHURCH HERE.

The Milam County Missionary Baptist Association will convene with the First Baptist Church of Cameron, Oct. 18, at 8 p. m.

This announcement is made today by Rev. C. L. Spradley, county missionary. The introductory sermon will be preached by Rev. H. F. Aulick of Belton, one of the state district missionaries. The annual sermon will be preached by Rev. G. S. Tumlins, pastor of the Baptist Church in Rockdale.

All the churches of the county are asked to send mesengers to the meeting.

The public is invited to attend the meeting and to aid in the services.

Mr. and Mrs. S. P. Cross received a telegram Tuesday from their daughter Mrs. Louis Crow at San Antonio, to the effect that they were all safe, although they live within a block and a half of the flood district.

205 is our Phone number.
MIDDLETON & THOMAS.

Mrs. E. N. Shaw is visiting with Mrs. S. Carlton, waiting for railroad conditions to be improved and then she will join her daughters, Misses Dora and Sue at Bay City where they are teaching for the winter.

## THE AMERICAN' CREED.

I believe in the United States of America as a government of the people by the people for the people—whose just powers are derived from the consent of the governed—a democracy in a republic—a sovereign nation of many sovereign states—a perfect union one and inseparable—established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it—to support its constitution—to obey its laws—to respect its flag—and to defend it against all enemies.

## LOCAL AND PERSONAL

Mr. and Mrs. John B. McLane received news of another grandbaby this week—a fine boy of Rev and Mrs. Brooks McLane at Tex-Mex. institute.

Tuna Fish, 15c.

### MARION COUNTY MAN MAKES $9,000 OUT OF 300 ACRES OF PEANUTS

Jefferson, Tex., Sept. 14.—Making good on peanuts in Marion County, R. H. Crudup living about seven miles west of Jefferson, estimates his income from a 300-acre field this year wil be $9,000. It is no wonder that Mr. Crudup only has eight acres in cotton, for he, like many others, has learned a lesson in staking all hopes on one crop and that being cotton.

This county has long been known as one of the best in the country for growing peanuts, and this year many examples of proof are current.

# COURT HOUSE NEWS OF THE PAST WEEK

**District Court Proceedings, Marriage Licenses Granted and Other News**

### District Court.

The case of Jos. J. Michalka vs. D. J. Kubecka, judgment was rendered in favor of plaintiff for $1150.00.

Frank Tomek vs. D. J. Kubecka, judgment in favor of plaintiff for $250.00.

Millers Indemnity Underwriters vs. Clint Callitent which was set for Sept. 14, was reset for Oct. 3.

First National Bank of Thorndale vs. Sam Sanders et al., judgment was rendered in favor of plaintiff and foreclosure of mortgage in property described in plaintiff's petition.

### Marriage Licenses.

J. N. Whittle to Miss Ruth Sprinkel.

Walter Agusta Bolinger to Miss Martha Ann Pratt.

Z. P. Talley to Emma Swing.

Juan Salie to Roberta Gonzales.

Julius Staten et ux to Henry Burnett, 96 acres of land out of the Levi Taylor survey; consideration, $1760.00.

# NEW DATE SET FOR LIVE STOCK SHOW

**Cameron Commercial Club Committee Postpones It Until October 21 and 22.**

Owing to the fact that our highways are not open and in order to give everybody a chance to catch up with his work, the committee in charge of the Agricultural, Live Stock and Poultry Show has decided to set a new date, October 21 and 22.

The show last year was in November, so the date for this year is much earlier.

The committee has had many inquiries from those who purpose to make entries of stock and farm products, and much interest is shown. A catalogue in book form will be issued next week.

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or expel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

# SAGE TEA KEEPS YOUR HAIR DARK

**When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.**

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

# SUMNERS GIVES HIS VIEWS ON COTTON

**Since Loan Laws Are in Effect, the Law of Supply and Demand Will Maintain Price.**

Congressman Hatton W. Sumners is in Dallas for a couple of weeks and after holding a series of conferences through his district on the cotton situation, with fruit growers and cattle raisers will make another tour of the cotton belt.

Discussing the present cotton crop Mr. Sumners stated that it is now only of historical interest, as the things undertaken, in so far as the present crop is concerned, has been finished.

"All we have to do now is to sit steady in the boat and permit the law of supply and demand to take care of prices this year," he said. "But we have a definite task for the future to which we must now address ourselves.

"We must not forget the experience through which we have just passed, nor must we neglect, because of the present more favorable developments, to provide as far as we can against the recurrence of the damages from which we have so narrowly escaped.

"There is one thing I want to say in this connection with regard to the actual workings of the law of supply and demand, which we hear so much about from those who evidently know nothing about it except from somebody's theories of which they have read.

"I do not know anything about the theories, but I have watched it work. It is not a fool proof, self adjusting economic force, protecting people against their own follies. Like every other law it enforces itself by the penalties imposed for violation of its provisions, as well as by rewards for their observance. It operates directly upon the supply offered for sale at a given time and upon the demand for use at that time. It is only when those quantities are adjusted to each other that it can enforce a just commercial transaction. Under an unhampered control it does operate, of course, upon reserve supply and prospective need dependent upon that supply.

"But where we have been acting with a foolishness which cannot be properly characterized, has been in the crowding of our staple crops at harvest time upon a gorged market, in violation of the law of supply and demand, and when we could expect nothing but the penalties of that law we have been trusting to that law for its protection.

"We have been doing an almost equally foolish thing in compelling agriculture, with its annual turnover, to be dependent upon a banking system, adjusted in its creation to meet the needs of manufacturing and business concerns, which have constant turnovers."

### NOTICE.

This is to give notice to the public that cotton receipt No. 163419, issued in the name of W. W. Terry on the 9th day of September, 1920, by the Cameron Compress Co., for one bale of cotton delivered by him to that company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

W. W. TERRY.

**There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.**

## BOODIES OF RAILROAD MEN RECOVERED

(Continued from page 1)

in the trees and drifts, and other evidences of deplorable devastation throughout the flooded area traversed. The weary searchers toiling along the banks or desperately fighting the treacherous current in boats, would look up and waive appreciation to the airment as they reeled dizzily along the water or dodged in and out among the branches or over the tree-tops, all bent on the same sad mission.

The ship and her tired crew returned safely to her home field just at sundown, with nothing encouraging to report to the anxious friends and relatives who had been scanning the skies for hours in the hope that with its return would come some word of hope.

**The Pilot of the Searching Ship.**

The Santa Fe officials and the Telegram are sincerely appreciative of the services of Pilot Roy Sanderford. Both of the Telegram's regular air pilots being out of the state when the request came. Mr. Sanderford, busy with his official duties in the tax collector's office at Belton, was asked to take the ship. Veteran war pilot though he is, Sanderford had not been in the air for a year, and had never flown this particular type of ship. But when the nature of the situation was explained to him, Bell county's steady, routine tax collector closed his huge desk, reached into a closet and took down his flying helmet and goggles, and slipped easily and naturally from the prosaic role of a county official to that of a daring air pilot. Only the day before Sanderford had refused a three-figure offer from a Fort Worth newspaper to take one of their reporters to San Antonio, on the grounds that he had quit the air, and was too badly out of practice anyway to fly a ship. But when the nature of the situation was explained to him Monday he did not hesitate—as expressed by one of the men in his office, "Roy never looked back." Only when being strapped into his pilot's seat the ex-war flyer remarked to his mechanic: "This old ship has not been in service for a long time, and neither have I. I never flew one like her, and I don't know whether I understand her or or not, and I think this field is too muddy to ever get her off—but here's hoping. 'Contact.'"

In order that the hazardous nature of this flight may be understood it is explained that, since it was necessary to fly low over the rushing water or rough timbered land, with no possible place to land the ship in case of emergency, the air men were staking their all on the faithful and continuous performance of their big high tension engine to develop every ounce of its ninety horsepower of energy all the time. The missing of a single one of its eight cylinders for an instant would have brought them crashing into the trees or into the raging current of the five-mile-wide stream.

"I watched my fuel gage," said Pilot Sanderford, "with the fact in mind that I must reserve enough to get us back to Temple, because in all that waste of water and mud stretching for seventy miles from the mouth of Little river clear back to our own landing field at Woodlawn, there was not one spot where a ship could be set down in safety. We just naturally had to keep that old craft in the air."

**Flooded Area as Seen from the Air.**

"Little river is from a quarter of a mile to three miles wide," Roy Sanderford said. "It is full of dangerous cross currents still. There isn't much drift and lots of it floating now, and lots of it has collected in the tree tops. I didn't se any cotton bales in the water, but I could tell that the cotton crop in the fields had been totally ruined for miles back.

"There were bodies of every sort of animals floating in the water.

"I skimmed along just over the tree tops and looked closely for men and bodies. I am sure that there couldn't have been anyone in the trees, because we passed each side four times and then zig-zagged the course of the river.

"I passed one drift that had what appeared to be the blue jumper and back of a man exposed on it. I couldn't tell for sure but it appeared to me that I could see a man's neck there.

On the second flight Sanderford was accompanied by Durrell Tooke of the Daily Telegram staff. This time the plane swooped low over the river and again searched all the trees and the drifts and went down as far as the Brazos river and several miles past the mouth of Little river. The Brazos river was within about two feet of bank full, they said.

"We saw cows, horses, hogs, chickens, dogs, and three floating houses, and everything I ever saw anywhere else, floating around in the river," Took said. "We found one old mule still alive in an inundated pasture. He seemed to be standing on a high knoll as the water was not deep enough to cover him all over. He didn't seem to be much worried about the flood, and looked up at us as we circled over.

The swollen waters covering the Little river valley following Saturday's cloudburst took on a more tragic aspect late Sunday when word was broadcast here that two prominent citizens of Temple and high Santa Fe officials, Maynard F. W. Robinson, division master mechanic, and F. W. Leatherberry, division engineer, were unaccounted for several hours after a small boat in which they were riding near the Cameron railroad trestle had capsized.

Searching parties combed the river with boats and in every possible way throughout Sunday night and all day Monday still had no hope for the missing men.

F. G. Pettibone, vice president and general manager of the Gulf Colorado and Santa Fe lines, was at the river to direct operations to rescue the men or recover their bodies and chartered the Temple Telegram plane to scour the river country.

Two long and hazardous trips proved of no avail. Hope was held out that the two men had lodged in drift or tree tops.

Robinson and Leatherberry were at the scene of the Santa Fe washout, where approximately 3,000 feet of track had ben swept away. The nearby trestle, unusually high as a steel structure had been built upon the filled-in base of the old one, was said to have stood with thirty-eight inches of water above it. When water receded enough that the top of the trestle was visible Robinson and Leatherberry are said to have set out to inspect the bridge in a small rowboat, about 3 o'clock Sunday afternoon.

Later, when the men did not return, a searching party was sent for them. The boat was found capsized and Leatherberry's notebook was discovered on the top of the trestle. It was hoped that the men had gotten to safety, but an extensive search failed to find them.

A number of people standing on the bank on the Cameron side saw the boat carrying the two men approach the trestle from the upper side. This was at a distance of about a quarter of a mile and the view was indistinct, but witnesses said that they saw one of the men was standing as the boat came close to the trestle. The boat suddenly went up, and then capsized.

Combing of the river was begun immediately after it became known that Robinson and Leatherberry were unaccounted for. Available boats were put into use and people waded wherever possible in the search that followed.

F. A. Thomson of Temple took his motorboat to the scene Monday morning and a number of row boats were used. Mr. Pettibone had his high powered motorboat from Galveston on the scene.

The Temple Telegram's airplane was flown to the scene by Roy Sanderford of Belton, reaching Cameron within 35 minues and searching the tree tops and drifts on each side for five miles along the river, making a tour of each river bank four times and then following a zig-zagging course down the stream. Returning to Temple in the early afternoon, Sanderford reported to the Santa Fe officials there that he had seen no signs of the men in the flood.

Still hoping to find the men, the machine was sent back to the scene with Sanderford as pilot and D. M. Tooke, a representative of the Temple Telegram, as observer. Upon its return last evening there was nothing new to report.

Among the Temple people engaged in the search yesterday or Sunday night were: Roy Campbell, Charles Cox, W. G. Haag, Will Brown, W. A. Spencer, John B. Daniel, Stanley Pike, Will Hair Jr., F. A. Thomson, Bert DeBord, T. J. Cloud, Dr. O. F. Gober, J F. Ray, Marion Wilkerson and Charles W. Wolverton.

Mr. Robinson is a man of 50 years of age and Leatherberry is about 35.

## STORM DEAD

Thorndale, forty-five bodies recovered, all Mexicans.

Laneport, twenty-three bodies recovered, all Mexicans.

San Gabriel, one unidentified white man, eight Mexicans and one negro.

Alligator Creek, five Mexicans.

Lawrence's Crossing, one negro woman and two negro children.

Roy Bland farm near Taylor, four Mexicans.

Elm Grove, twenty-nine Mexicans on Jake Bower's place, seven miles southeast of Taylor.

White persons whose bodies have been recovered are Arnold Jackson, 4 years old, and another Jackson, Taylor. Mrs. M. L. Brown and son, Lee, at Redville gin on Aligator Creek.

The family of Seth Glascock of San Gabriel is missing since their house was destroyed in the flood.

Mr. and Mrs. J. H. Cobb.

Mr. and Mrs. M. L. Brown and little son, Redville Gin, on Alligator Crek, a small tributary of the San Gabriel River, six miles north of here.

Arnold Jackson, 4 years old, and sister, Texas Jackson, 7 years old, Hogan's Crossing, on Brushy Creek.

Twenty-two Mexicans, names not known, on the Jack Bowers farm, fourteen miles northeast.

One Mexican, Hogan's Crossing.

Two identified bodies at Hozie's Bridge, ten miles northeast on the San Gabriel River.

Unidentified man and two children at Lawrence's Crossin on Brushy Creek.

Eight Mexicans, one American and one unidentified negro at town of San Gabriel, fourteen miles east of Taylor.

Five Mexicans, unidentified, on Alligator Creek, at a settlement of the same name.

Two negroes at Hutto, names not known.

Shortly before noon a messanger came from the Youngstown district, across the river from the Bower's farm. He reported twenty-seven persons drowned here. It is unknown whether these Mexicans included the ones on the Bower's farm.

Grandma Bonner, 85 years old, Rockdale.

Youn white man, unidentified body, recovered from San Gabriel and buried in Rockdale Tuesday.

F. W. Leatherberry of Temple. Body recovered at Cameron.

Manyard F. W. Robinson, of Temple, body recovered near Cameron.

Bailey Turner, large planter in San Gabriel bottom, near Rockdale, missing.

H. C. Sullivan, plantation owner in Gabriel River bottom, near Rockdale, missing.

Search for bodies in the lowlands along the rivers have brought to light many fetes of heroism during the last four days. Attention was directed Tuesday to the work of R. D. Clark and Fred Green, two Rockdale young men, who in the aggregate, swam approximately 10 miles in search of bodies and to locate missing citizens.

These young men were in Cameron Monday, swimming down the San Gabriel and then across Little River in search of missing people from Rockdale which include Baylor Turner and H. C. Sullivan, who were partners in farming near Rockdale and who have been missing since last Friday, as is also two Mexican laborers, a negro boy, and a hired hand and a lady who was 85 years old was found, but was dead. Ed Green also had a narrow escape, loosing his house and all of the belongings but he swam to a place of safety.

## FLOOD STOPS DRILLING IN MILAM FIELD

(Continued from page 1)

everything is safe.

The big Star rig being moved on the Robert Issacs 100 acres north of the Oklahoma Bell Oil company's wells was reported to have landed on the location, but the men moving the rig were almost caught in the rise and barely escaped drowning, making their way to Minerva under difficulty.

All operations will begin in the field again when the weather conditions permit.

At least 4 new wells will be spudded in as soon as rigging up is completed. They are the more C. Hess et al No. 1, Robert Issacs, north half of 200 acres tract east of the Neihous well No. 1.

The Little River Production company No. 1, Robert Issacs, north of the Hohenstein wells, will probably rig up this week. Johnson, Sullivan & Taylor No. 1, Manly-Freeman 53 acres, are preparing to spud in, and the Fogel et al No. 1, Day, are moving on rig, the movers have been experiencing some trouble in getting the machine to location, it being so heavy the rig went through one bridge enroute to the field from Maysfield.

When all operations have started again in the field there will be ten drilling wells in all, with four of these nearing the pay sands, if they are all producers, will prove up considerable territory in the new shallow pool and the field will then boast of 7 pumpers.

Two of the large companies' geologists are in the field for the purpose of working out the structure for deep oil, it is believed that the field has the same chances for deep oil as the Mexia field to the north in Limestone county, at least all the indications from deep oil is here and it is this feature of the field that is attracting the larger companies and also increase the value of the oil possibilities of the oil property.

Nothing further has been done on the proposed pipe line and loading rack at Minerva. The oil men have three different propositions offered them and one of them will probably be accepted sometime soon. Oil conditions are improving daily all over the state and the price of crude oil has been advanced in some of the fields, production is falling off and there will have to be additional wells drilled to bring up the production to normal again. Oil is due for a big rise and money for legitimate development is getting easier. All of the larger companies are getting busy and are starting a drilling campaign, which will mean a revival of the oil business.

The Cameron Machine shop and garage have nearly completed the new building and have built a new office and installed new machinery to care for all the additional repairs that are needed on the drilling rigs in the Minerva field. This ship is an asset to the oil men and a credit to Cameron.

## MAYSFIELD ROAD IS CLOSED FOR REPAIRS

Commissioner N. H. Butts of Cameron has closed the Maysfield road to save it from being cut to pieces by heavy trucks and wagons hauling freight to inland points.

This action was taken after a conference with County Auditor Giles Avriett following an inspection of the road.

This action will save the county hundreds of dollars and its example should be followed in every road district in Milam County while repairs are being made and the roads are drying.

The policy of millions for good roads and not a cent for maintenance is proving an expensive system.

# *Health Advice from the county Health Officer*

Following the excessive rains and subsequent overflows, I fear an epidemic of sickness unless steps are taken to prevent it. I therefore urgently advise that the following precautionary measures be taken:

1. Boil all drinking water.
2. Drain all standing pools of water if possible.
3. Oil all pools that cannot be drained.
4. Repair your screens against mosquitoes and flies.
5. Clean up your premises thoroughly and remove all nuisances.

Signed:

**T. J. DENSON,**

*COUNTY HEALTH OFFICER*

## Mother and Son Drown In Aligator Creek Saturday

In a message to The Cameron Herald Tuesday night Fred M. Herndon, editor of the Thorndale Champion, tells of the death of Mrs. M. L. Brown and son, Lee Brown, in the flood waters of Alligator creek Friday night. They resided at Redfield's gin, Lee Brown being engaged in running the gin. Mrs. Lee Brown was saved from the flood.

Mr. Herndon says that the damage to property and the loss of life in the country around Thorndale cannot be estimated at this time, but will be very heavy. There was only slight damage in the city of Thorndale.

Forty-five bodies were recovered in the streams about Thorndale.

The report says that the big steel bridge across the San Gabriel river on the Thorndale road has been washed away as has the Sheckles bridge on the Gabriel on the road to Rockdale.

Ely Cass of San Gabriel is reported from Thorndale as having been drowned. A negro whose name is unknown is reported drowned.

---

Miss Florence Hughes of Yoakum who had been attending the Teachers Institute at Belton returned Tuesday to her home, having been detained here on account of the flood, was a guest in the home of Mr. and Mrs. Robt. McLane and family.

---

Miss Mary McCown left Tuesday for Brownwood to enter Daniel Baker college. She will graduate there this year.

---

### ROADS OF COUNTY STAND UP UNDER FLOOD TIDE

(Continued from page 1)

construction of the 40 foot bridge just west of the Holtzclaw bridge and also for the construction of the 180 foot approach on the McCown bridge.

The Buckholts road is now open and every assurance is given that the Cameron-Rockdale road by the McCown bridge, the Holtzclaw road leading to Tracy and Sharp will be open by the latter part of the week.

Commissioner Butts decided to close the Cameron-Maysfield road on Wednesday on account of the great damage being done the road by heavy trucks and heavily loaded narrow tired wagons. This road will probably be opened again on Thursday.

It is remarkable how well the gravel roads north of Little river look after the flood. Outside of the road in the bottom this side of the McCown bridge and a few other places in the bottoms where the current was swift most of the roads are in good condition.

There has been considerable damage to culverts in the Bryant Station and Sandy Ridge communities. It has also been rumored that a bride on Elm Creek out from Buckholts and one on South Elm out from Buckholts has been washed away.

On account of bad phone connection no definite information has been secured on the damaage which has been done on roads or brides south of Little River. However, it is known that the bridge at San Gabriel over the San Gabriel River has been washed away, also the Glasscock and Sheckles bridges have been washed away.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

# Fifteen Texans Go Out As Baptist Missionaries To All Parts of Globe

(1) Miss Mina Garrett, Waco, teacher of science, Eliza Yates College, Shanghai, China; (2) Miss Bernice Neel, Decatur, educational work, Rio, Brazil; (3) S. S. Hawkeye State; (4) Miss Effie Evelene Baker, Bangs, educational work among girls in Japan; (5) Mrs. Vecie King, Chapman, Houston, educational work in Japan; (6) Mrs. Caroline Smith Taylor, Lampasas, Bahia, Brazil; (7-8) Dr. and Mrs. W. A. Hamlett, Austin, representatives of Foreign Mission Board in Near East, with headquarters at Jerusalem; (9) Francis Willard Taylor, Bangs, Bahia, Brazil; (10) Miss Marjorie Taylor, Belton, educational work, Sao Paulo, Brazil; (11) Miss Minnie Alexander, Lometa, secretarial work, Kaifeng College, Kaifeng, China; (12) Miss Lucille Reagan, Big Springs, evangelistic work in African Mission; (13) Miss Viola Humphreys, Dublin, evangelistic work, Kaifeng, China; (14) Mrs. Leta Denham Scott, Seminary Hill, evangelistic work among Hakkas, South China; (15) Miss Nora E. Hawkins, Childress, educational work, Campos, Brazil; (16) Marcus J. Scott, Seminary Hill, evangelistic work among Hakkas, South China.

From the larger proceeds of the Baptist 75 Million Campaign the Foreign Mission Board of the Southern Baptist Convention has been enabled to send out more than 160 new missionaries since that movement was launched, it is announced, and of that number sixty young men and women, representing fourteen states, have just sailed for China, Japan, Africa, Brazil, Argentina and Chile. In addition to these, Dr. and Mrs. Everett Gill of Kansas City will sail September 14 to become representatives of the Board in Europe, while Dr. and Mrs. W. A. Hamlett of Austin, Texas, have just sailed for Jerusalem, where they will maintain headquarters in acting as the Near East representatives of the Board.

The new missionaries to China and Japan sailed from Seattle, Saturday, August 27, on the Hawkeye State of the Admiral Line, while those for Brazil, Argentina, Chile and Africa sailed from New York on the Aeolus August 17. They will be engaged chiefly in evangelistic, educational, medical and agricultural work and will be stationed at various points in these fields. While a large number of new workers have been sent out by the Board since the beginning of the Campaign, at least 100 other capable young men and women could be employed to advantage if they were available, Secretary J. F. Love advises.

**Mission Money Gets Results.**

Of the more than $25,000,000 that has been collected in cash on the 75 Million Campaign to date, about $5,000,000 has gone to foreign missions. This has made it possible not only to strengthen the old work on all fields and employ a large number of new missionaries, but to do much other work, including building or making substantial additions to 15 boys' schools, 17 girls' schools, 37 mission residences, five hospitals and dispensaries, four light and power plants for mission compounds, 26 church buildings, four colleges, seven theological seminaries. In addition, assistance has been given seven church building loan associations, six new stations have been opened and equipped, land has been bought for the enlargement of several mission compounds, a home for orphans in Italy has been established, and a block of ground has been purchased in the heart of Rome for headquarters for the work in Italy, a theological seminary, publishing house, church and mission residence being provided on this property.

**Enlarge European Field.**

As a result of the Campaign, Southern Baptists have been enabled to greatly enlarge their work in Europe. They have carried on mission work in Italy since 1870, but now they have opened up new work in Jugo-Slavia, Hungary and Roumania, and have made a beginning, through the distribution of Bibles, in the Ukraine and Southern Russia and Siberia. To act as the European representatives of the Board in this enlarged program, Dr. and Mrs. Everett Gill of Kansas City were recently named. They will probably make their headquarters in Switzerland.

The first work Southern Baptists have ever done looking to the evangelization of Mohammedan lands has just been undertaken in Palestine and Syria, and Dr. and Mrs. W. A. Hamlett of Austin, Texas, have gone to Jerusalem, where they will superintend the work of the native evangelists. It is planned to establish a church, theological seminary and college, hospital and orphanage at Jerusalem as soon as practicable and thus seek to reach other points in Palestine and Syria from this center.

**Minister to 900,000,000 People.**

With the enlarged foreign mission program of Southern Baptists that denomination is now operating in 18 countries on every side of the globe, and has in its employ practically 500 foreign missionaries and twice that number of native workers trained in the mission schools. Through its present missionary operations the Board is seeking to minister to 475,000,000 yellow people, 4,000,000 brown people, 200,000,000 black people and 225,000,000 white people, making a total of 900,000,000 people, or more than half the population of the globe. Numbered among its workers already on the field are 21 foreign physicians and 8 foreign mission nurses who last year gave 154,070 treatments. There are now 611 mission churches on the foreign fields and of this number 184 are self-supporting. The average contributions of these mission churches last year to denominational causes was $5 per member, the Christians on the foreign fields responding more liberally as a result of the 75 Million Campaign.

The new missionaries sailing at this time were contributed by the following states: Alabama two, Arkansas one, Georgia five, Kentucky six, Louisiana two, Mississippi four, Missouri four, North Carolina three, South Carolina five, Tennessee five, Texas fifteen, Virginia six, Iowa one and Pennsylvania one.

### WATER SERVICE MAY BE RESTORED FRIDAY

As a result of the progress made in reconstructing the power wires to the pumping plant on Little River, the belief is expressed that complete water service will be restored Friday or Saturday.

City Health Officer Dr. T. G. Van Zant has issued a warnin to all water users that pumped water from river must be boiled at least 30 minutes before drinking. This warning is issued because the chlorinator is not working and the water cannot be purified. Boiling of drinking water must be kept up for at least 30 days.

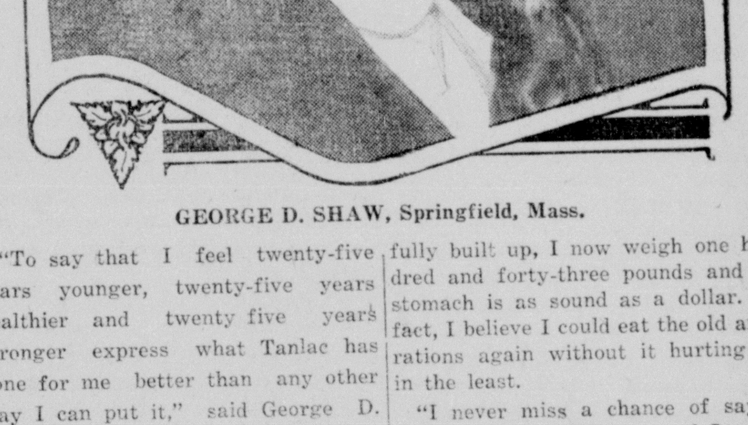
Water service was discontinued last Saturday by C. W. Lawrence, except consultation with the city council. By doing this the water company guarded for certain periods of the day, after ed against a famine by preserving the standpipe supply for drinking purposes.

The action of Dr. Van Zandt will safeguard the health of the city and his suggestion should be rigidly adherred to.

---

I took out my first policy as a youth of nineteen.—President Harding. S. E. Brogden, Life insurance at the Herald office.

# Veteran of Civil War Still Hale and Hearty



GEORGE D. SHAW, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty five years stronger express what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderfully built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the "Sixties" who are not feeling right to give it a trial, for I am sure it would put them in line again just at it has me. For a man of my age to have no physical ailment, to be well and strong and enjoy life as he did twenty-five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

"Tanlac is sold in Cameron by New Cameron Drug Co., in Rockdale by Baldridge Bros., in Milano by E. C Smith and in Burlington by the New Drug Store. adv

**Notice to the Public.**

As there are a great many unbranded and unmarked cattle, horses, and mules now at large in the county, on account of last week's floods, I have been asked by the Milam County Cattle Raisers' Asociation, of which I am secretary, to request through the papers, all parties having such stock in their possession, to report same promptly to the sheriff

GEORGE T GRAVES,

Secretary Milam County Cattle Raisers Association.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backachy or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

By MRS. W. A. GILLON

WHITTLE-SPRINKLE.

A marriage of unusual interest to Cameron people because of the popularity of the bride—of her nearness to them, and of the love they felt for their dear teacher and friends. Of interest too, because of Dr. Whittle and Miss Ruth knowing each other in Mississippi some years ago, and now terminating i nhappy marriage.

The family and close friends knew the marriage was coming, but were not looking for it when on Tuesday morning Dr. J. N. Whittle of Jacksonville, Texas,and Miss Ruth Sprinkle went for a drive and went out to the home of Rev. Pardo and took the solemn vows which made the twain one.

Dr. Whittle is a M. D., who has recently moved to Jacksonville, a man of wealth and influence.

Miss Ruth Sprinkle is one of whom we say: "To know her is but to love her." She is a talented, refined and cultural lady and Cameron is lothe to give her up. After a pleasant hour at dinner with the family Dr. and Mrs. Whittle left in their car for Jacksonville, where they will make their future home.

Miss Sprinkle is the daughter of the late Mr. and Mrs. W. M. Sprinkle who came here from Heidelburg, Miss. 25 years ago. Mr. Sprinkle was engaged in the mercantile business here until his death—the family being prominent in church and school and all other enterprises for the upbuilding of Cameron.

Miss Ruth is a gradute of Stone college, a school for girls in Mississippi, and was valedictorian of her class. In Cameron she has always been prominent in all intellectual, social and religious affairs.

Her talent as a musician is very marked and leaves its impress with numbers of her music pupils.

She was social editress of the Cameron Enterprise for several years and served that department creditably.

She was organist of the First Baptist church and none ever was more faithful. Indeed, Miss Ruth, will be missed at every turn and Dr. Whittle is to be most heartily congratulated upon having won so great a prize.

The Cameron Herald and all of Cameron people follow them with best wishes for all the best life gives.

MUSICAL.

Last Friday evening at eight o'clock Mrs. Tom Henderson Sr., invited a few neighbors and friends in to one of her delightful musical treats This time the performers were Misses Olive Henderson, violinist,Agnes Henderson vocalist, both young ladies having just returned from a summer's study at Baylor college, Belton, and Miss Louise Densen gave a number of choice readings. Miss Louise has been studying in Waxahachie this summer.

Mr. Robert Smith presided at the piano as accompanist, which added much to the evening's pleasure. A splendid program was rendered after which Mrs. Henderson served delicious punch.

* * *

FORTY-TWO PARTY.

Miss Louise Atkinson was charming hostess last Friday night to twelve of her friends. Three tables were arranged and the first game played was "42." Tally pads and score cards were Miss Louise's own hand work, beautiful colored butterflys, fashioned out of card board. Decorations were flowers of all kinds with butterflys perched among the leaves. Home made candy of several kinds were in crystal bowls on each table to be eaten during the games. Table favors were boxes of candy and in the cut fell to Miss Mary Virginia Atkinson, John Jeter and Billy Hefley.

After the 42, other games were played and enjoyed. Mrs. Atkinson, assisted by her charming little daughters, served delicious cream and cake.

* * *

Monday afternoon the ladies of the M. E. church gathered at the home of Mrs. B. J. Baskin for a study of Foreign Missions.

There were about sixteen ladies present and were honored also by the presence of their pastor Rev. Ira F. Key. After the lesson Mrs. Baskin served delicious shrimp salad sandwichs, sweet pickles and grape juice.

* * *

PRESBYTERIAN AUXILIARY.

Circle No. 1 met with Mrs. W. A. Gillon with seven in attendance. Sewing and conversation was the diversion of the afternoon after which white cake and grape juice was served.

Circle No. 2 met with Mrs. Henry McFadyn with three present. A questionaire on Home Missions was the study, visiting and carrying flowers to the sick closed the afternoon work.

Circle No. 4 met with Mrs. C. W. Lawrence with six present. Discussion for the winters work was in order and many fine suggestions made.

* * *

BAPTIST AUXILIARY.

The ladies of all the circles met at the church Monday afternoon. An interesting lesson was conducted by Mrs. Wm. Henderson from their book W. M. U. Manual.

There were fourteen ladies present.

* * *

Birthday Party.

Last Thursday afternoon Aubrey Hightower celebrated his tenth birthday.

Ten little boys and girls came in to enjoy it with him and brought marbles, pencils, perfume, tooth brush and paste, and a number of other things suitable for a boy of ten years old.

Games of various kinds were played on the lawn, after which Mrs. Hightower was assisted by Mrs. Bertha Barrett in serving delicious cream and cake and candy.

The large white birthday cake was cut and the thimble and button fell to Waymond Jenius, the tooth pick to Robert Lee Barrett, and the dime to Ruby Hightower.

The children had a jolly good time and thanked Aubrey for the pleasant evening and wished him many happy returns of the day.

# MORE TRANSFERS TO CAMERON SCHOOLS

At a meeting of the County Board of School Trustees held in the office of Jim F. Chadwick, county superintendent, last week there were a number of pupils transferred to Cameron district, as well as to other districts in the county, as follows:

Transferred to Cameron for high school purposes: Lucile Scarbrough from Add Hall; Bobbie Davis from Tracy; Marcella Marak from Marak; Elizabeth Brewer from Curry; Fannie McLendon from Ben Arnold.

Other transfers were: Ethel Allen from Burlington to Rosebud; Sabian, David, Allyne and Ethel Beal from Prospect to Milano; Sallie Pond from Jones Prairie to Calvert; Mildred Griffith from Union Ridge to San Gabriel.

Liberty School No. 37 was classified an elementary high school.

Allen Cook was appointed in school district No. 26 to fill the vacancy caused by the resignation of C. E. Moses.

Other business was deferred until next regular meeting on account of the absence of some of the members of the board.

Methuselah's Struggles.

This grand old man lived in a period when sanitary rules, as moderns understand them, hadn't ever been suspected. His residence was just across the alley from the Checkered Front livery barns, where most of the town camels and goats were kept, and the flies were so thick that he had to fight them with a shovel.

There were no screens on his windows and fly traps were not on sale at the hardware store, and Methuselah just had to defend himself the best way he could. There was no plumbing, and he had to throw the slops out of the back door, and often when he went to the well for a refreshing drink he found a dead cat in it. The air around that unfortunate man must have been crowded with germs and microbes and the wonder is that he lived long enough to cast his first vote.

Yet in the free-for-all longevity contest Methuselah won the silver loving cup and gold-headed cane, all who came after him. Even the president of the board of health can't hope to equal it.

FARMER FINDS COTTON BOLLS WITH NINE LOCKS

Honey Grove, Tex., Sept. 14.—There is something new in the realm of King Cottotn. A few days ago Green Shelton, a well-known farmer, who resides south of this city, found in his field some cotton bolls with nine locks. He picked the cotton out and brought the locks to town.

Many to whom the bolls were shown suspected a trick and examined them closely to see if the boll was pasted together, but it stood the test.

# Heavy Storm Damage Reported Near Minerva

The most violent storm that has ever been known in this section struck north east of Minerva Friday night, destroying property in its wake and uprooting great oak trees.

It was estimated the gale was blowing 75 miles an hour with torrents of rain accompanied by heavy thunder and bolts of sheet lightning.

One farm house was totally destroyed on the Hubert place, the tenants, the Smith family, narrowly escaping death when the twister blew the building down, demolishing the furnishings and injuring Smith, his wife, and a small baby in arms.

The house of Mrs. W. A. Robinson was moved on the foundations, and the big red barn and garage near the residence were totally destroyed. A garage on the George Manly place was blown down. In the path of the hurricane, the wind blew the side walls crosswise from the roof, making an entrance on all four corners.

The estimated property damage exclusive of crops as the result of the tarnado, is $10,000. No lives were lost.

NOTICE TO THE PUBLIC

I have been requested by a number of persons who have lost livestock in the recent overflows, to insist that all parties that have now or have had possession of any live stock that came out of the flood, to report same at my office at once, where a record will be kept for the information of parties who have lost livestock.

I have been informed that the impression seems to be with some people that they have a claim on anything they get out of the flood. This is not true, and any one secreting or hiding or converting to his own use and benefit any such property, is liable to prosecution, and will be severally dealt with.

Please report all stock at once, and I am sure that owners will be glad to pay reasonable charges.

L. L. BLAYLOCK,
Sheriff Milam County.

WHERE WASHINGTON WORSHIPED

HISTORY shows that the plot of ground on which stands Christ church, in the quaint, old-fashioned town of Alexandria, Virginia, first settled about 1695, was acquired in 1794 for the sum of one penny.

Around this sacred relic of by-gone days perhaps revolves more patriotic sentiment than that which surrounds any other of the many old and historic churches in this nation. An iron fence, set upon an ancient brick wall, encloses a grassy plot which is dotted with many quaint grave stones and also contains the church itself.

Although certain interior changes and renewals necessarily have been made, the general appearance of the church is practically the same as in the days of old. The same chancel rail, communion table, reading desk and chairs and brass candle holders are in use, while among the relics in the vestry may be seen the first bible used—made in Scotland in 1776, and the long-handled purses in which the offerings of the parishioners were deposited.

It was to this church, both before and after the revolution as well as after retiring from the presidency, that General George Washington came from Mount Vernon, in his "coach and four", to worship. The pew occupied by the Washington family, as well as the one used by General Robert E. Lee, are maintained in exactly the same condition as when used by them

# SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It never fails to relieve the torment or disfigurement. A little jar of Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

# TO THE PEOPLE OF CAMERON AND HER TRADE TERRITORY:

Think how fortunate we are as compared with other sections of the country in that this community has never known a complete failure, and how fortunate for both the present and the future of the cotton industry that the crop is as short at it is this year.

With the large carry over from last year's crop, had a fine crop been raised this year, it could not have been sold.

But it is now selling at twice the price we had hoped for, and the entire crop along with the carry-over will be absorbed in the world's consuming markets this year, thereby assuring us a good demand and a good price for next year's crop.

We have raised larger food and feed crops this year than usual. Our people are better prepared to live at home and consequently, through economy and prudent management, will be able to, in great measure if not entirely, satisfy whatever debts they may have made this year.

There is no reason why the man who does the best he can to satisfy his obligations should fear the future. He will get the credit next year that his business requires, if he meets the present issues in a manly way.

Let us have faith in the future. These testing times come that real men may be sifted from among the weaklings. The man who holds on a day longer is sure to succeed. It is the fellow who quits who does not succeed.

Learn that in all the six thousand years of history, WORRY never accomplished anything; that the successful man is not the one who never makes mistakes, but the successful man is the fellow who meets reverses with a smile and fights on.

The officers of this bank wish to assure you that their faith in the future is unshaken, and that we will take care of all reasonable demands next year as in the past.

The kind, optimistic, hopeful world is what we need. Join us in this campaign of confidence and good will: confidence in the future and good will towards the fellow who is struggling under disadvantages, by saying at all times the hopeful and stimulating thing.

A last word, if we could give only one gift to you, we should make it ENTHUSIASM,—enthusiasm for your job, enthusiasm for your neighbor's success, enthusiasm for the community's welfare.

Yours faithfully,

# More Than 100 Lives Lost In Valley Lands of Williamson and Milam Counties In Flood

More than 100 bodies of flood and storm victims in the lowlands along the San Gabriel river in Williamson and Milam counties have been recovered, according to the correspondent of the San Antonio Express at Taylor, who telephoned a report. The correspondent telephoned the following:

"One hundred and nine bodies have been recovered from flooded lowlands along the San Gabriel river in Williamson and Milam counties as the result of more than 20 inches of rain between last Friday and Saturday mornings, which caused a rise of 40 feet. Most of the dead are Mexican farm laborers."

Death lists from different towns and communities are as follows:

Thorndale, 45 bodies recovered, all Mexicans.

Laneport, 23 bodies recovered, all Mexicans.

San Gabriel, 8 Mexicans.

Alligator Creek, 5 Mexicans.

Roy Bland farm near Taylor, 4 Mexicans.

Elm Grove, 29 Mexicans on Jake Bowers' place seven miles southeast of Taylor.

Another dispatch to the Express from Rockdale, Milam county, says:

"More than twenty families in the Brazos bottoms between Gause and Valley Junction are reported to have been lost. Five persons are known to have drowned on the Ed Green farm in the San Gabriel bottoms.

"More than twenty feet of water rose over the roads in the Brazos bottoms and nothing has been heard from the twenty families living there.

"Virtually every bridge in Milam county, both railroad and highway, has been destroyed."

Property losses will exceed $1,000,000, the report said.

Conditions along the Brazos between Rockdale and Hearne are unknown.

Ed Green, the farmer on whose land several were drowned, was rescued after being in a tree 36 hours. Two white boys and a girl were rescued at the same time.

The Taylor correspondent said that the rainfall from 3:30 a. m. of Friday to 7 a. m. Saturday was 21.5 inches, the heaviest in the history of the weather bureau, established at Taylor twenty years ago.

All wagon and railroad bridges out of Taylor in every direction are gone. Only one train has run since Saturday night.

The property loss in the town of Taylor is estimated at $450,000 to $750,000. No lives were lost in Taylor.

The two children drowned in Brushy creek clung to a tree for two days and were drowned just as help was in sight. Their names are not known.

W. D. Barfield of the county road force was going to their aid when they became exhaused and fell into the water. Six other children in the vicinity were rescued by Barfield.

At Hutto, Williamson county, a tornado, accompanied by heavy rains, struck the negro district. Fifteen dwellings and the negro Baptist church were wrecked.

## REPORT ON FLOOD GIVEN IN TAYLOR

Taylor, Texas, Sept. 13.—As the flood waters of the San Gabriel river and Brushy creek recede in Williamson and Milam counties the list of dead now amounts to 85. However, all reports are unofficial and made by messengers or people passing through the inundated districts. The limited telephone and telegraph facilities of the smaller surrounding communities were almost completely wiped out by the flood and tornado.

The flood victims were found mostly along the San Gabriel river, a usually peaceful stream that rises in Burnett county and crosses Williamson and Milam counties to empty into the Little river. Brushy creek took the toll of life south of Taylor.

The newspapers here compiled the list of dead. While the newspaper men said that all of the dead reported had been reliably accounted for, they could not vouch for exactness of the list. However, attempts at verification proved almost futile but the few that were verified stood at reported.

The majority of the dead were Mexicans, with negroes next in number.

**Late today Maj. David R. Nelson, farm agent for a local bank, returned from the Youngstown community, fourteen miles northeast and reported that twenty-seven Mexican farm laborers had drowned in the San Gabriel. He said that a Mexican had swam the river to tell him of the death of his neighbors.**

# Dug For Water Many Years; Discovers a Spring on Farm

A fruitless search for water vein on his farm near Burlington ofr many years has been rewarded by the accidental discovery of a spring in an unfrequented portion of the place of H. Stoebner.

Last week, a son, Fritz Stoebner, was returning to the home from across the plantation and while crossing a small valley flanked by high ground which serves as a drainage course, he discovered on the side of the hill a tiny rivlet of water coursing down. Further investigation showed a strong seepage.

The discovery was reported to H. Stoebner who with his sons went to the spot and began to dig. At a depth of 12 feet with a hole 3 1-2 by 3 1-2 feet the well showed six feet of water. The analysis showed the water to be pure and entirely suitable for all domestic purposes.

For many years Mr. Stoebner at different times has sought to find water by digging wells, but without success. He is elated over the discovery which adds thousands of dollars in value to his farm.

## FIRE DESTROYS HOME OF JOHN LEWIS SUNDAY

The home of John Lewis on West Main street was destroyed by fire at 4 o'clock Sunday morning. Only a small amount of the household goods were saved from the home. Hundreds of citizens flocked to the fire thinking the compress was again being destroyed. The firemen did good work after stringing two lines of hose, preventing the spread of the fire. The home was insured for $3000.

School children pediculosis 10.
School children under weight, 10 per cent or more 178.
Fees collected $64.00.

## THE COTTON SITUATION.

New York, Sept. 9. 1921.

To the Cameron Herald.

The vigorous rise in the price of cotton this week is to be attributed not only to the low government bureau condition report of September 1st, but to the description of conditions furnished in the supplementary report of the Department of Agriculture. The statement regarding weather developments in Texas and Oklahoma revealed a situation of such seriousness that English merchants became thoroughly alarmed over the outlook. In the fall of the year, Manchester depends upon Texas cotton for a large percentage of its immediate supply. Finding the staple inferior to last year's growth, foreign buyers turned to the Liverpool stock. Sales of spot cotton, running from fifteen to twenty thousand bales daily, brought in covering of hedges in the contract market. By reason of the intimate relation existing between the three large cotton exchanges, this sensation advance abroad carried New York and New Orleans contract prices upward. In less than five days foreign prices rose ten and one-half cents and not until Wednesday, when October contracts touched 14.82d on the Liverpool Exchange, did the advance culminate for the time being.

The advance abroad caused contracts in New York to sell at twenty-two cents for the distant delivery. Twice during the week, Exchange rules limiting fluctuations to two cents had to be invoked. In New Orleans trading limits were reached both on the advance and on the decline during the same sessions. Trading has been of enormous volume and the situation continues to reflect extreme nervousness on the part of trade interests. On the reaction of three and one-half cents during the middle of the week, mill buying appeared in large volume and support of this nature can be looked for on declines for some time to come. A great deal of speculatively held cotton was sold on the reaction and the technical position improved to that extent. The reaction revealed the fact that many interests, having taken profits on the advance, are anxious to replace their cotton, as deterioration is still taking place throughout the belt and the question of frost has yet to be determined.

In our judgment eighteen cents for October delivery in New York about represents the minimum value of this year's supplies. Forced selling might cause some further decline, but the economic conditions which have established the present prices still obtain, and some of the underlying factors are more powerful than they were last month. The New England spinners have minimum stocks and there is a demand for goods at high prices greater than they are willing to contract for until they shall have obtained the grade and quantities required. The boll weevil continues to devastate the growing plant and the yield will be so small and the total supplies will be so contracted that the cotton industry of the world will be menaced. We are convinced that sixteen cents for basis middling is the foundation price for cotton for the remainder of this season and advise the producer to sell only moderately as the season progresses.

Yours very truly,
J. W. JAY & C.

## NOTICE.

This is to give notice to the public that cotton receipt No. 50617, issued in the name of Frank Valka on the 18th day of Aug, 1921, by the Cameron Compress Co., for one bale of cotton delivered by him to that company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

19 2t FRANK VALKA.

# TEXAS LEADS IN FARM VALUATION

481,788 BALES GINNED FROM THE 1921 COTTON CROP.

Washington, Sept. 8.—The Census Bureau announced today that the running bales of cotton, counting round as half bales, ginned to Sept. 1 from the crop of 1921 was 481,788, as compared with 351,589 for the same period of last year.

Round bales included numbered 36,208, as compared with 17,451 last year.

The number of running bales, counting round as half bales and excluding linters ginned in 1921 by States was as follows:

Alabama, 13,941, Arkansas, 265, California, 173, Florida 359, Georgia 44,124, Louisiana, 2,688, Mississippi, 3,308, North Carolina, 73, Oklahoma, 1,167, South Carolina, 1,041, Tennessee, 2, Texas, 409,026, all others, 127.

The world's production of commercial cotton, exclusive of linters, grown in 1920, was approximately 18,810,000 bales of 500 pounds net, while the production of cotton (exclusive of linters in the United States) for the year ending July 31, 1921, was approximately 15,520,000 bales of 500 net pounds. The total number of producing cotton spindles active and idle is about 155,000,000

The leading states in crop values in 1919 were: Texas with $1,071,526,923, Iowa with $890,391,299, Illinois $864,676,833, Ohio $607,037,562, Kansas $588,723,248, and California $587,600,591.

Corn was the most important single crop in 1919 from the standpoint of value, the crop being estimated at $3,705,792,102, which was 23.8 per cent of the total value of the crops. Wheat was second and oats third.

Hay and forage were valued at $2,523,992,544 in 1919 and vegetables at $1,302,904,344. The value of hay and and forage increased 305.4 per cent in ten years and vegetables 211.6 per cent.

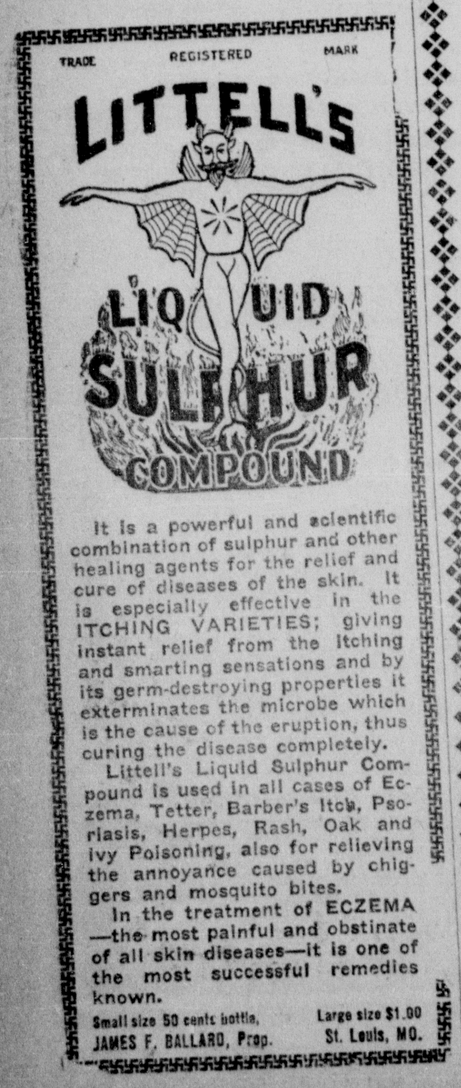
## AMENDMENT TO PRO LAW IS SIGNED BY GOVERNOR

Austin, Texas.—The amendment to the Dean prohibition law passed at the first called session of the legislature has been signed by Governor Neff. It does not take effect until November 14, ninety days after sine die adjournment, because of the failure of the legislature to take record votes, the conference report being adopted by a viva voice vote.

Considerable interest was aroused by this bill because the impression was given by incorrect newspaper articles that under this amendment it would be lawful to manufacture "home brew."

The bill expressly states that it is unlawful to manufacture intoxicating liquor for any purpose whatsoever.

However, the bill as passed, exempts the purchaser from the provisions of the law. When it takes effect it will therefore be lawful to purchase intoxicating liquors for one's own personal use.



It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA —the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size $1.00
JAMES F. BALLARD, Prop. St. Louis, MO.

## ROCKDALE SUFFERS LOSS OF $500,000

Rockdale, Sept. 10.—With an estimated damage of $500,000, wire and rail communication broken down, the lower parts of Rockdale under twenty feet of water, and scores of families marooned on farms near here, rain which began falling yesterday morning at 11 o'clock and developed into a cloudburst last night, was still falling tonight.

Dozens of Rockdale families driven from their homes by the high water spent last night on the roofs and were rescued early today. So far as the authorities have been able to discover there have been no casualties.

Fully 3,000 acres of cotton is under ten to twenty feet of water, a total loss, and hundreds of head of livestock are believed to have perished. From one herd alone seventy were killed and other stockmen lost smaller numbers.

The mile and one-half steel trestle of the San Antonio & Aransas Pass road nead near here is entirely out, more than two miles of I. & G. N. track has been washed away, and railroad property between here and Cameron is damaged to the extent of $150,000.

Damage to city streets alone is estimated at $10,000.

PARENTS!

THAT SON OR DAUGHTER? WHAT ABOUT THEIR FUTURE SUCCESS?

Their ability to think, to do, to act, according to the laws of a well trained mind will measure their success.

How to give them the most of this important training in the shortest time at at the least cost, is the question that a catalogue from America's largest business training school will answer. Whenever a group of parents get together, whether it be at home, picnic or church and the question of the kind of an education to give a boy or girl comes up, some well informed parent and a patron of the Tyler Commercial College, Tyler, Texas, will tell of the advantages of this famous institution and what wonderful results it accomplishes at small expense. Write for a catalogue of the Tyler Commercial College today. Read the endorsements from parents who have patronized this institution, and note what they say as to the thoroughness of our training, and as to the moral surroundings of the students while in school. Read the many endorsements from our former students showing their success. Read the endorsements of business men who employ our graduaates. Read the description of our extensive practical courses of study, and you will see that the Tyler Commercial College ranks among the foremost educational institutions of the country. When your son or daughter has graduated from this institution they will hold a diploma that represents efficiency and will not only be a passport into the best salaried positions, but will be unquestionable evidence that they have achieved a great accomplishment. They will not have to go back home and wait for something to turn up, they can go into the business world ard turn something up.

Fill in and mail for our free catalogue.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

# A Fund of Information That You Should Have

Disraeli, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is saisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocket book to study the advertisements in this newspaper—regularly—every week.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watchdog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy,

*Read the Advertisements*

# INSECTS

SUCH AS BED BUGS, FLIES, ANTS and MOSQUITOES, Quickly and easily killed with MARTINS SURE DEATH SPRAY. It does not stain. Guaranteed by Schiller's Pharmacy.

# Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

# THORNDALE NEWS

BY FRED M. HERNDON

### REPORT FROM BOY SCOUT CAMP

(Delayed from Last Week.)

The big event is over and we are all home again. The officials in charge say that it was the biggest scout camp held in Texas. It would take too much time and space to tell all we did and all we learned and all the good times we had, and all the hard work we did also, all the kind favors shown us at the camp.

The record shows a little over fifty tests passed in second and first class scout rank as follows:

Loy Edmondson leading with 8 tests and Earl Worley second with 6. Audis Burk and Fred Schwartz with 5 each. Brown Clement, Weldon Ramseur and Earl Scruggs 4 each. Hudson Spencer, Jno. Phillips, Clyde McDonald and Edgar Hoppe with 3 each. Lee Herndon 2 and Gordon Hinds 1. Wm. Taegel having passed all first class before going, was successful in pulling down twelve merrit badges. Audis Burk and Earl Scruggs are now first class scouts and would have gotten some merrit badges but the application blanks ran out. I don't know how many rank tests were passed by the entire camp, but one of the officials said that the Thorndale scouts showed more tests passed than any other of the same number in camp. We got the record for cleanest quarters and tied in two games of ball.

Although small in number we were not small in accomplishments and every one is proud of it. I have given this report to show the parents of these boys that what they did was worth while and that it was a profitable trip as well as one of pleasure.

We want to pay a tribute of respect and appreciation to the following names who helped to make it possible by furnishing money and automobiles: Im Rudi, L. D. Barnes, Rev. J. J. Burk, Arthur Scruggs, F. M. Herndon, Thorndale Champion, Thorndale Drug Co., Jones Clement, W. A. Brown. We hope that these will soon see the good results from their efforts. We hope to see the people of Thorndale rally to the call for leadership in the best organization for boys —Boy Scouts of America.

J. V. ECHOLS,
Scoutmaster.

### BURGLARS MAKE TWO RAIDS.

### KURIO'S AND RED CROSS DRUG SUFFER LOSS BY NIGHT PROWLERS. NO CLUE.

Some party or parties, unknown, pried the bars from back windows of C. E. Kurio's store and from the Red Cross Drug store some time during last Wednesday night or early Thursday morning and carried away articles valued at more than $100 from the two stores. Entrance to both stores was effected in the same manner, and from the appearance of the smallness of the openings made at each store it was a very small person who first entered the stores, later opening the back door, presumably for the purpose of letting in a more bulky confederate, as the sizes of shirts and shoes taken from the Kurio store would indicate a much larger person than the one who could have entered through the small opening first made.

A check of the store made by Mr. Kurio shows that at least 3 pairs of shoes, sizes, 8 8 1-2 and 10, and 9 silk shirts, sizes 14 to 15 were taken. As to a further loss Mr. Kurio was unable to say.

From the Red Cross Drug store articles missed included package perfumes, safety razors, jewelry and pocket bill-folds and pennies from the cash register totalling more than $75 according to O. F. Weise, proprietor of the store.

Candy cases at the stores were also visited in an apparent effort of the night visitors to assuage a sweet tooth. No clue as to their identity has as yet been found.

### ELLISON RIDGE SCHOOL WILL OPEN NEW TERM SEPTEMBER 19TH.

The Ellison Ridge school, near Thorndale will open the new term on Monday morning, September 19th, just a week later than the Thorndale schools.

Mrs. W. A. Brown, who taught a successful school at Ellison Ridge last year has been re-engaged as principle and will have Mrs. Ida Hennington, also of this city assisting her.

### JAZZIN' 'ROUND HOME PLATE

The American Legion team defeated Elgin at Lake Austin in the first of the three game series last Sunday 3 to 2 in a 12 inning contest. Now IF they can only take one more from the fast Elgin squad the championship of Central Texas will rest between Thorndale and the American Legion.

### BIG OIL MEN VISIT OUR FIELD

W. H. Dickinson and M. C. Smith of the Twin Cities Production company are looking over the local oil field with a view of locating a part of their activities in this field. It is known that they represent a strong company of investors of St. Paul and Minneapolis interests, but any further information as to their intentions at this time would be simply guess work, and our readers are as goo at guess work as the editor so "roll your own"

### LOCAL AND PERSONALS

Mr. and Mrs. I. G. McGinnis are now comfortably quartered in the Sanders place in the eastern part of the city and getting straight after their recent move here from San Marcos. Mr. McGinnis recently sold his interest in the drug store at San Marcos and came back to Matchless Milam where he still retained his interest in the Thorndale Drug company, and he can again be found in his old accustomed place behind the counter at this popular store. The many friends here of the family are rejoicing over their return to the city.

Bartlett McMellan is in San Antonio visiting with his mother before returning to the University.

Maxey Hart has opened a law office in San Antonio.

Manager Dudley English played with Taylor in their two games with Bartlett this week before returning to Galveston to enter the Medical department of the state university.

A letter from Arthur Allen, the best and peppiest little backstop that ever donned a mask in Central Texas baseball states that he is resting up and spending a few days with his mother in Dallas before going to Austin for the coming school term.

The balance of the players scattered to various parts of the state and will visit with home folks before going to Austin for the coming school term.

McMellan, Ellis, Johnson and Cannon were in the Longhorn line-up against the Legion nine at Lake Austin in a benefit game Monday afternoon. The entire proceeds of the game were given to the Legion team. Coach Billy Disch of the University was trying out the bunch after their season of play with Thorndale.

Manager Camp says the boys will all be back again next year and a more regular schedule of games will be arrainged that will cover considerably more territory than the past season.

Floyd Goff who has been mixing the fancy drinks for the New Confectionery for some time past will now be found behind the bar, beg pardon—the fountain of Van Fields confectionery.

**You Do More Work,**

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 75c per bottle.

# STORM TAKES HEAVY TOLL OF PROPERTY IN BUCKHOLTS

### CORINTH CHURCH DEMOLISHED AND OTHER BUILDINGS IN TERRIFIC GALE.

Damage to property estimated at many thousands of dollars is the toll taken by the Friday night storm in the city of Buckholts and near the town.

Thirteen different instances of damage are reported by D. R. Criswell of Buckholts who was in Cameron Tuesday. The Herald is debtor to Mr. Criswell for information regarding the property damage toll taken by the storm.

Among the tolls taken was the total destruction of the Corinth Methodist church and the residence of Mr. Ermis near the town. The Corinth school building was blown twelve feet from the foundation and badly damaged. The Baptist church in the city of Buckholts was blown from its foundation and damaged.

The country around Buckholts while sustaining heavy damage in property will not feel as heavy a crop loss as was true near Cameron and other sections of the county.

Mr. Criswell told The Herald Tuesday that it was difficult at this time to estimate the damage but it will be heavy both in property and crops. Sunshine and clear weather will serve to mitigate the loss that will otherwise be sustained by the farmers in their crops.

The following instances of storm damage are reported by Mr. Criswell.

Corinth Methodist church, demolished.

Corinth new school building, blown off foundation and damaged by flying timbers.

E. H. Geistman's tenant house wrecked and piece of timber blown through window into the Geistman residence, breaking dishing on dining table.

Mr. Baca's residence, badly damaged, one yearling calf killed, one hog and some 200 chickens killed.

Mr. Ermis residence, wholly demolished, and barnes, sheds and garage wrecked.

Mrs. Lea Hartsman's large residence blown off foundation and damage to barnes, sheds, etc.

John Ermis, damage to barnes, sheds and other buildings.

Anton Ermis, damage to barns, sheds, etc.

Mrs. Elsie Horstmann, large barn blown down.

Henry Horstmann, damage to barnes and sheds, and some slight damage to residence.

V. A. Kubecha, office building in town of Buckholts, blown from foundation.

Baptist church in town of Buckholts blown 12 feet from foundation.

Mr. Elliott's residence and barn, considerably wrecked.

# First Well Spudded In Near Milano is Basis for Celbration

At noon Wednesday the well spudded in on the Burnett tract near Milano was down 75 feet. This is the first drilling activity in the Milano sector of the Milam country structure. The spudding in of the well was celebrated by a barbecue and grand entertainment by the citizens of Milano.

In a special message to the Cameron Herald from Milano Chas. Howes tells of the spudding in of the initial well.

### NOTICE.

This is to give notice to the public that cotton receipt No. 163418, issued in the name of W. W. Terry on the 9th day of September, 1920, by the Cameron Compress Co., for one bale of cotton delivered by him to that company, has been lost, and that the undersigned is the legal owner and holder of said cotton, and the public is warned not to accept said receipt or to deal with same in the hands of any other person.

W. W. TERRY.

### CARD OF THANKS.

To our many friends and neighbors we extend our most sincere thanks and appreciation for the many donations and kindness extended us on account of our misfortune.

Very respectfully,

MR. AND MRS. J. A. MILLER.

Mrs. W. M. Ross received a telegram at noon Wednesday announcing the arrival of a great grand son, Marion Morton, Jr., at oFrt Worth, Sept. 7th.

### NOTICE.

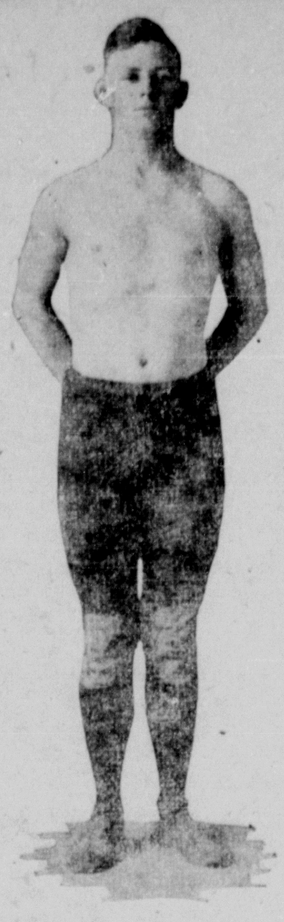
The trustees of Yarrellton School District No. 55 of Milam county, Texas, will receive bids at 2 o'clock Saturday afternoon, Sept. 3rd, 1921, for the erection and completion of a three-room frame school building on the Yarrellton school site at Yarrellton. The school house bonds voted for this purpose have not been sold yet and the payment for the work and material can not be made until the said bonds are sold and money received but the trustees agree and will contract to pay 10 per cent interest on all deferred payments due upon the said contract for building said school house when the money from the sale of said bonds has been received. The plans and specifications for the said school house can be seen at the county superintendent's office. A certified check of 5 per cent of the bid must accompany each bid to be entitled to consideration. The trustees reserve the usual right to accept any or reject all bids.

GEO. LOCK,
S. H. DOBBS,
N. E. COLBURN,
Trustees.

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

The Reporter is in receipt of a complimentary copy of Parma's Automobile Log Book issued by J. T. Parma, a citizen of Cameron. The book contains 76 pages of complete data concerning most of the leading roads, and is so arranged as to give Cameron and Milam county some mighty good advertising. In fact, it constitutes one of the best pieces of advertising for Cameron that that city has ever put out, and resembles more the work of a commercial body than that of a private individual. Mr. Parma is to be congratulated on his public spiritedness in issuing this book, and Cameron is to be congratulated on having a citizen thus alive to her interests. The book will be found quite a valuable asset to any man who travels, containing, as it does, detailed log routes of most important roads. As a partial means of reimbursing himself for the expense incident to the logging of the routes and the publishing of the book Mr. Parma is selling them at 50c each, and local parties desiring to purchase will find them on sale at W. E. Gaither's garage.—Rockdale Reporter.



TEXAS JACK BENNETT

The last wrestling bout held in Cameron, was quite a surprise to the local fans, and to Gandy's promoter. Gandy had never had his back put on the mat until he met Texas Jack Bennett of Corpus Christi, Texas, who defeated Jim Gandy, better known as the undefeated Handover demon. Gandy worked hard for his match with Bennett. He plays ball with a bale of cotton and also has a black Jack he wrestles.

Mr. Kenon said to a big six footer that Gandy wanted to wrestle him as soon as he threw Bennett. But the big man said, Oh no! Not me, I don't want to have anything to do with a man like that, although that didn't phrase Bennett at all, and on Sept. 3rd, when they wrestled, Bennett defeated Gandy in twelve minutes, in a winner take all, one fall to a finish. Bennett stated after the match with Jim Gandy, that if Gandy wasn't satisfied, he would agree to throw him three times in one hour, in a winner take all.

Bennett is here now and wishes a match with Gandy or he says he will throw Gandy and his trainer, both in one hour. If Gandy doesn't except the challenge, he will try and get some one Bennett's equal.

### NOTICE TO THE PUBLIC

I have been requested by a number of persons who have lost livestock in the recent overflows, to insist that all parties that have now or have had possession of any live stock that came out of the flood, to report same at my office at once, where a record will be kept for the information of parties who have lost livestock.

I have been informed that the impression seems to be with some people that they have a claim on anything they get out of the flood. This is not true, and any one secreting or hiding or converting to his own use and benefit any such property, is liable to prosecution, and will be severally dealt with.

Please report all stock at once, and I am sure that owners will be glad to pay reasonable charges.

L. L. BLAYLOCK,
Sheriff Milam County.

**COLLEGE INDUSTRIAL ARTS**

(State College for Women)
Denton, Texas.

The College of Industrial Arts offers the following advantages to Texas girls: (1) a pleasant, healthful, and accessible location in the state of Texas, (2) an unimpeachable moral and religious environment, (3) freedom from distracting internal and external influences which tend to lower the morale of the student body and the value of the work of the College, (4) a standard of living that discourages extravagance, and promotes a democratic spirit in keeping with sound economy and with the best American traditions, (5) courses of study that combine sound culture and accomplishment with preparation for practical, useful living; that chiefly keep in view the needs of the present and the future; and that are flexible enough to allow, within safe limits, conformity with the aptitudes and inclinations of the individual student, (6) a faculty of college and university trained specialists—men and women of maturity, scholarship and demonstrated teaching ability, (7) an administrative system that develops initiative, resourcefulness, and self-control on the part of its students and fosters the highest ideals of character and conduct.

It is a College of the first-class and gives literary, technical, and vocational training of the best quality, designed to develop mental discipline, social culture, spiritual vision, and efficiency. It confers the degrees of bachelor of arts, bachelor of science, bachelor of music, bachelor of business administration, and bachelor of literary interpretation; awards vocational diplomas and certificates, and issues teacher's state certificates.

The next session of the College opens Tuesday, September 20, 1921. For further information or for the latest catalogue, address.

F. M. BRALLEY, LL. D.,
President, College of Industrial Arts,
Denton, Texas.

# FIVE KNOWN DEAD IN FLOOD AREA AT ROCKDALE

Rockdale, Sept. 12.—Five lives are known to have been lost in the flood of Friday and Friday night on the Ed Green farm in San Gabriel bottom. Grandma Bonner, 85 years old, Jones, a white boy, and Huff, a negro boy at San Gabriel, the son of Ed Kast, white merchant, and a negro boy,name unknown, were lost. More than 20,000 acres of bottom land cotton has been entirely destroyed. Several farm homes in the San Gabriel bottoms have been washed away.

The condition of the Brazos river bridge between Rockdale and Hearne is yet unknown. Water stood over the bridge yesterday, but this morning had fallen six feet. There have been no trains over it since Saturday morning. Two and a half miles of track and fill washed away on the I. & G. N. between here and Thorndale and the agent reports that it will be Saturday before damage can be repaired and cribs built to let the work trains over.

Rockdale has been without lights since Friday night and water running low as electric current is off and no power to run water pumps.

Ed Green, a farmer, was rescued after being in a tree thirty-six hours. Also two white boys and one white girl were rescued at the same time. There is only a one-way train running to Yoakum on the San Antonio & Aransas Pass. With bridges out it will probably be thirty days before communication is re-established with Waco. The Brazos river is seven miles wide.

---

I took out my first policy as a youth of nineteen.—President Harding. S. E. Brogden, Life insurance at the Herald office.

—o—

Fresh car American Beauty Flour $2.25 per sack. Every sack guaranteed. Giles L. Avriett.

## Thorndale Personals

Mrs. Cline of Rockdale was a visitor in the home of J. A. Cline here this week

—o—

Dr. E. L. Laurence returned home Saturday from Marion, Alabama, where he accompanied his son Reed to school.

—o—

John Franklin of the Gardner community was trading in Thorndale Monday.

—o—

O. F. Smith spent Sunday with his brother Buda.

—o—

Mr. and Mrs. Wilbur Richardson and children of Dallas spent a few days here this week with her brother W. D. Burkhart and family. Mr. and Mrs. Richardson are former residents of Thorndale and will be remembered by many of our citizens.

—o—

Wm. Meredith came in Monday to accompany Mrs. Meredith to their new home at Manor where Billy is in charge of the Ford agency. Best wishes of their many friends go with them to their new home.

—o—

W. N. Moody and children from Minerva were in Thorndale on business last week.

—o—

Will Chambless from Tanglewood was in our town one day last week.

—o—

John Penny and Ralph Rose were in San Gabriel Saturday night.

—o—

Carl Rose was a Rockdale visitor Saturday.

—o—

Miss Gray is visiting in Franklin. The Misses Ramick have a sister visiting them now.

—o—

Homer Langford of Gardner was on our streets one day last week.

—o—

A. J. Penney from below Rockdale was here Saturday.

—o—

Frank Muston from near Gardner was on our streets Saturday.

—o—

G. W. and R. Q. Penney of Nile were business visitors here Saturday.

—o—

Jess Hyde made a business trip to Thrall Saturday.

Charlie Tucker from near Salty was in Thorndale Saturday.

Lem Dunham of Nile was here one day last week.

Hugo Wuencke of Ellison Ridge was on our streets Friday.

Mr. Galloway of Franklin was a recent guest in the home of Matt Gray.

W. O. Saunders of Georgetown was transacting business here one day last week.

Mrs. M. E. Fisher and little son, Max Leroy and Mrs. Arthur Longmire and children visited relatives and friends in Rogers recently.

The Champion editor has received a jar of very fine honey from the San Gabriel Valley Apairies of Jamie L. Clark, the flavor and quality of which is unexcelled by even the famous Uvalde honey which is known wherever honey is consumed. Jamie told us the names of the bees that made this luscious sweet but for the life of us we can't recall the names of those Italian black bees. Anyway Jamie knows them by their first name and he will be glad to explain to you just how he gets them to gather only the very best honey there is in abundance in this section.

The editor has been under the impression that honey was honey, no matter where it came from, but since trying this Gabriel Valley sweet and listening to Jamie tell just how to get the best the bees can gather we find that it is a matter of WHO cares for the bees and the manner of handling that determines the quality and flavor of it.

Jamie has our sincere thanks for this treat and we are doubly pleased because it is a home product. We are going to ask him to write an article for The Champion readers on the methods he employs in bee and honey culture, that is, if it is not giving away secrets. It would certainly make interesting reading and would be valuable to those of our readers who like honey and bee raising.

Ford

THE UNIVERSAL CAR

The Ford Coupe

The Ford Coupe is surely the Salesman's car. Thousands of them are bought every year by firms employing traveling salesmen. Many firms buy fifty or one hundred at a time, because they know, from experience, that the Ford Coupe increases the efficiency of the salesmen at a minimum of expense.

Contractors, builders, collectors, solicitors, physicians all find the Ford Coupe the most convenient as well as the most economical among motor cars. Lowest in purchase price, lowest in operating costs, and backed by the Ford Service organization—coupled with the durability of the car itself—these furnish the reasons for the Ford popularity.

Let us send you a copy of "Ford—A Business Utility." It tells what other concerns have learned about the Ford in business service. But, better still, let us have your order today. The demand keeps growing. Orders are filled in the order as received—and our allotment is limited a specified number each month.

CHAMBERS-HEFLEY MOTOR CO.

Cameron, Texas

For Torpid Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. Whiteside, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

Thedford's BLACK-DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Thedford's Black-Draught," is on the package. At all druggists.

Accept Only the Genuine.

J. 79

NOTICE

to Everybody

I have lost quite a number of cattle and mules and several head of horses in the recent overflows. Most of my cattle are branded a big O or circle around the hip bone and are nearly all red muleys or white face cattle. My calves under seven months old are not branded. Nearly all my mules are branded the figure 7 on left jaw but some are branded two straight marks or the figure 11. The mules are all good ones.

Also one small white grey pony, branded on jaw and one small Jennette, very gentle. The last two animals belong to my little grandson and I am very anxious to get them.

Any information about this stock will be greatly appreciated. Respectfully,

R. L. BATTE

# 47 KNOWN DEAD IN SAN ANTONIO FLOOD; $15,000,000 LOSS

### ALMO CITY FLOOD REGION UNDER MARTIAL LAW AS RESCUERS WORK.

San Antonio Friday night was swept by one of the most tragic and disastrous floods in the history of the southwest.

Following a veritable cloudburst at the heads of the streams traversing the heart of the city, the water rushed down with tremendous suddenness upon the city and shortly after the great tide came the currents were surging around the Gunter hotel, the Elks' Club building, the Brady building the Wolff & Marx department store and throughout the heart of the business section of the city.

The water reached the mezzanine floor of the Gunter at its high peak

Police hold to their estimate that at least 250 persons have perished. Only 47 dead have yet been accounted for, but scores of drifts remain to be searched in San Antonio River, Alazan creek and the San Pedro, and when this is done it is feared that the toll will increase rapidly. Many bodies are believed to have floated down the streams, some of them never to be accounted for.

Streets adjacent to the three streams traversing the city were swept clean by the currents of the surging tide. Houses in the southern portion of San Antonio were torn from their foundations and piled one upon another, and in some cases driven entirely through adjoining buildings. Dead animals line the banks of the streams.

The flood waters from the San Antonio river and from Alazan creek and small tributaries inundated an area approximately two miles long by one-half mile wide, including the heart of the business section and a portion of the resident section along River avenue and adjacent streets, as well as the thickly populated west side where today thousands of Mexicans are homeless and the dead not yet counted.

These were the things visible to the eye when day dawned, cloudy, gloomy and threatening. But what occurred in the blackness of the night, when scores of men, women and children met death in the turbulent waters of the flood as houses collapsed, bridges were swept out, trees and electric light and telephone poles dropped with a crash as their wires became entangled with the wreckage, is something that will never be known in detail. Countless acts of heroism are current as civilians and soldiers, forgetful of personal safety, braved the currents and floating debris to carry women and children to places of safety. Thousands of families along the river were rescued before daybreak by men who worked long hours, often neck-deep in water, risking their lives almost every minute of that time to save others. And in keeping with such heroic acts were the tragedies that always accompany a disaster of such wide extent. Babies were swept from mothers 'arms and lost in flood waters; mothers were carried away and children rescued ; fathers were lost saving little ones and today there are widows and orphans in San Antonio who shudder at the mere thought of their experiences of the night.

**Search for Bodies Goes On.**

And there are numercus other people who do not know yet whether they are widows or orphans who are awaiting the outcome of of the search for bodies among the debris-strewn river banks.

The people of San Antonio were caught without warning. The rainfall which actually caused the flood fell after 8 o'clock Friday night in the bills along the Olmos creek. There was a cloudburst. The electric display was the most vivid ever seen here, as lightning flashed almost continuously and the thunder boomed and reverberated though the heavens. While torrents of rain were still falling in the streets of San Antonio and the residents unable to get out because of the downpour, went early to bed, a roar was heard, subdued but ominous, as the flood waters broke upon the town.

Following the river and Alazan creek and smal ltributaries of both, the flood waters swept upon the city with terrific force.

"It was impossible to stand on your feet against the swift surrent," said one man who escaped from his home by wading before the crest of the flood struck.

"I got away early as the first waters rose in my home, and even then I was compelled to cling to buildings, trees, fences and wreckage to get out. I could not stand upright against the forces of the water. When the crest came a few minutes later, I do not believe any human being could have withstood it."

In some parts of the city a wall of water, variously described as ten to thirty feet high, struck with a rush that carried houses from their foundations, swept motor cars away, destroyed concrete bridges, tore down trees and poles and ripped up the paving in the streets like so many pebbles.

"I seized hold of a picket fence," said one youth, "just as the flood struck. The fence was torn away and when I got out I still held one of the pickets in my hand. I do not know how I got out."

**Houses Tossed About.**

Large houses were swept about on the flood's crest as though they were paper boxes. Some of them were swept along until they encountered trees or other obstacles, when they were wrecked and boards and timbers of all kinds whipped about like clubs in the water, undoubtedly brought death to many. In fact, some of the bodies taken from the flood waters and awaiting identification in the morgues were cut and crushed and bruised as though beaten with a mighty flail.

Through the darkness of the night the terrified screams of women and children echoed now and then across the flood waters. Men and women sank to their knees in the mud and water and prayed. Others ran about in distracted manner, seeking relatives and friends, talking incoherently, weeping and wailing.

When the waters reached the business section of the city they came with the same rapid swirl with which they swept the residence portions.

**Rescuers at Work.**

But after the first rush of water when the river and Alazan creek left their banks, it was possible for rescuers to work at the edge of the flood, retreating steadily backwards like a battle line, yielding inch by inch before the charge of an enemy. The waters quickly swept up and down Houston and Commerce streets for blocks, running over sidewalks and into basements and rising steadily, even higher and higher.

They quickly made their way from street to street, up alleys, miniature waves lapping against the sides of buildings angrily. Now and then a piece of wreckage was tossed here and there through the streets until it collided with a show window. Then, "Bang! Crash!" with a shower of glass and much debris was seized by the waters and carried out and away, while a thick film of crude oil, muddy ooze and gravel spread through a once spotless store in the heart of San Antonio's retail district.

# Governor Neff's Labor Day Proclamation

Governor Neff's Labor Day proclamation touches the very key-note of our civilization and for this reason we are printing it this week.

The governor's proclamation in full is as follows:

"The law of life is work. It is an edict God-given and older than His thundering from Sinai's cloud enveloped crest. From that day even to this every man who does not win subsistence by worthy work has been and is a cumberer of the earth, destined by the law of nature and nature's God to degeneracy. Work in factory and field has become known as labor, and by its visibility and appeal to the senses it has won for itself special esteem in the minds and hearts of our people. But every man and woman in all our land worthy his bread is and must be a worker in some department of our complex system or production, transportation, and exchange.

"In the supreme effort put forth by us to win the world war, production became discord red, transportation and its orderly development was crippled and exchange was paralyzed. From these results we have suffered severely. To reorganize and rehabilitate production, to stimulate and regulate transportation, and to vivify and reinvigorate exchange, is the task and duty of every man and woman engaged in these respective departments of our economic life. That we are doing these things is now evident every where and that we shall accomplish all these tasks to the happiness of our own people, to the relief of the misery of starving people of the earth, and to the glory of this nation, there is no doubt.

"In the world war, labor performed its part gloriously. In the world's rehabilitation and recovery from shock and shell, fury and death, misery and hunger resulting from that woeful catastrophe, labor will perform its part with the same sturdiness and fidelity that characterized it in the stirring times of that terrible conflict.

"Therefore, as a special mark of respect to labor, provided by the Statutes of Texas, I, Pat M. Neff, governor of the State of Texas, do hereby designate and proclaim Monday, September 5th, 1921, as Labor day and a legal holiday in the State of Texas, and to urge the citizens of this state to observe that day in whatever manner each may deem fitting. The National flag should be displayed on public buildings as a mark of respect to labor."

**CREAM FOR CATARRH OPENS UP NOSTRILS**

**Tells How to Get Quick Relief from Head-Colds. It's Splendid!**

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Baalm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay suffed-up with a cold or nasty catarrh—Relief comes so quickly. adv.

**Piles Cured in 6 to 14 Days**

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. It instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 60c.

**To Stop a Cough Quick**

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

**625,000 BOTTLES SOLD IN NEW YORK**

**Biggest Thing of Kind Ever Seen in That State, Declares Big Wholesaler.**

The fact that 625,000 bottles of Tanlac have been sold in the state of New York since its introduction there less tha none year ago, is a big business item that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesaale druggists, with branches in Albany, Buffalo, Rochester aand Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this state alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

"Tanlac is sold in Cameron by New Cameron Drug Co., in Rockdale by Baldridge Bros., in Milano by E. C. Smith and in Burlington by the New Drug Store. adv

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

[By LEE R. TAG]

SCHOOL OPENED MONDAY.

Monday morning the 1921-22 term of school opened with a good attendance.

On account of the flood many were not present and therefore the full enrollment could not be secured but it is estimated that as many as fifty or seventy five more will be enrolled this year than last year.

Not only were there pupils that were unable to get here but there were some teachers also. Of the high school faculty Miss Bass and Miss McLaughlin could not be present for the opening day. But it is hoped that they will soon be at their post ready for duty.

The principal of the grammar school, R. H. Brewer was unable to get here on account of the high water around Cameron. Also there were several other teachers of the grammar schools who were unable to get here.

Monday was also the beginning of a new system of study in the school. There are to be six periods of one hour each. Thirty minutes of which are for lessen recitations and the other thirty minutes for study and passing.

This system has been tried out in many other successful schools around the state and has been inaugurated here. Periods for relaxation are provided for and it is assured that the pupils will have their full share of recreation.

This year the high school has a new department. It is the commercial department. In it are taught business arithmetic, typewriting, shorthand and bookkeeping. This is a most helpful department because it helps the pupils to learn something about business administration. Several pupils have enrolled for this department. Also another feature this year is the study of economics and sociology. This branch is taught by Miss Williams.

The 1921-22 term of school opened with a corps of teachers that equal any in the state and Cameron ought to be proud of this splendid body of teachers. The principal this year is R. B. Parsons the former grammar school principal. The science teacher is J. C. Jones. The English department is in charge of Misses Bass and McLaughlin. Misses Williams and Howell have the history department. Domestic economy is taught by Miss Cass and the Spanish department is taught by Mrs. Frank Henderson and the latin department is taught by Miss Reid. Miss Loventhal and Mr. Parsons have charge of the mathematical departmnet while the commercial department is under G. T. H. Meadows. This is one of the best faculties in the state.

---

There are many pupils taking the commercial course who went to school here several years past. Among those who graduated are Ray Casey, August Knipp and Earl Burk. Others taking the course are Charles House, Gaston Barmore, Edwin Bigbee and George Cone. Many students who are taking the regular school course are taking this work. This department is in charge of G. T. H. Meadows.

Football Practice.

Last Tuesday afternoon Coach Jones had his squad of football men out on the campus working and running signals. Many of the students were out and it is predicted by Mr. Jones that Cameron will have a football team that will not be surpassed by any in Texas. A better backfield could not be had and if a man breaks through the line that Cameron has he is either in luck or a superman. Those who are coming out for the backfield are Harliegh McGregor, quarter, Jack Taylor and Charles House, full, August Knipp, Frank Plaster, Edwin Bigbee, halves. Those who are coming out for the line men are Togo Joynes, Basset Watson, Lyons McCall, Vorin Yates and others who will be named next week. Coach Jones is a man who knows football from start to finish. He played for several years on the Baylor team and won distinction there. Not only is he a football man but he is good in any field of athletics.

Cameron has this year very excellent material to make a football team and also other teams. In basket ball Cameron will practically have the same lineup as it had last year. It will be remembered that this was a good team and won every game but two. Cameron also has quite a bit of material for a good track team. Of course a man like Elmer Self, the fastest runner on the cinder in high school track meets will be missed but a world of other material is ready to take his place.

It is rumored around the campus that the football teams of the freshmen and Sophomore classes are to have a game in the near future. The game will be of great interest to all because the two teams had a contest last year on the gridiron and the former won. A full account of the game will appear in The Yoe-Hi News after the great event.

---

The Senior class is not so large as it was last year, but what it lacks in size it makes up in pep. It has already started on this year's annual which means that if every thing goes right the book will be out on time.

## ROCKDALE DIPPING VAT WRECKED BY DYNAMITE

When Inspector Marshall went to the Rockdale dipping vat last Friday morning to prepare it for the day's dipping he found that it had been dynamited during the previous night, and placed out of commission. Later in the day he found that the Noack vat about four miles south of town had also been blown up. This makes the third time the Rockdale vat has been dynamited, and in all there have probably been ten or twelve cases of dynamiting vats since the dipping law was passed in this county, and as yet not a single arrest has been made. It is also reported here this week, that several vats in Burleson county were blown up last week, among the number being the vat in the Black Jack community. It is also reported that the Burleson county authorities have several men in jail, charged with the crime.—Rockdale Reporter.

Take LAXATIVE BROMO QUININE (Tablets.) It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 30c.

## MISS PAULA HENRY IS NAMED BY GOVERNOR ON STATE TEXT BOOK BOARD

Miss Paula Henry, daughter of Mr. Fred Henry of Cameron, has been named by Governor Neff as a member of the state text book commission. Miss Henry is teaching at Marshall where she has resided for the past year or more.

A dispatch from Austin has this to say regarding the naming of the text book commission:

Governor Neff has announced the appointment of members of the state text book commission as follows:

B. B. Cobb, Waco, Mary Shipp Sanders, Georgetown, Bonner Frizzell, Palestine, O. A. Fleming, Freeport, E. R. Bentley, McAllen, Miss Paula Henry, Marshall, L. E. Dudley, Abilene, Miss Katherine Gray, Austin.

**No Worms in a Healthy Child**

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 35c per bottle.

Folks say they enjoy our baking. They know that no bread baked is superior to the bread we make and they know our pastry is quite tasty. They know our buns are the ones that please and tease their appetite and that all the cake we make is just exactly right.

LONE STAR BAKERY

Somehow or other that word "succulent" makes a fellow sort of roll his tongue and look at the clock and wonder if eating time is approaching. It makes him think of this butcher shop and roasting pans and married life and things like that.

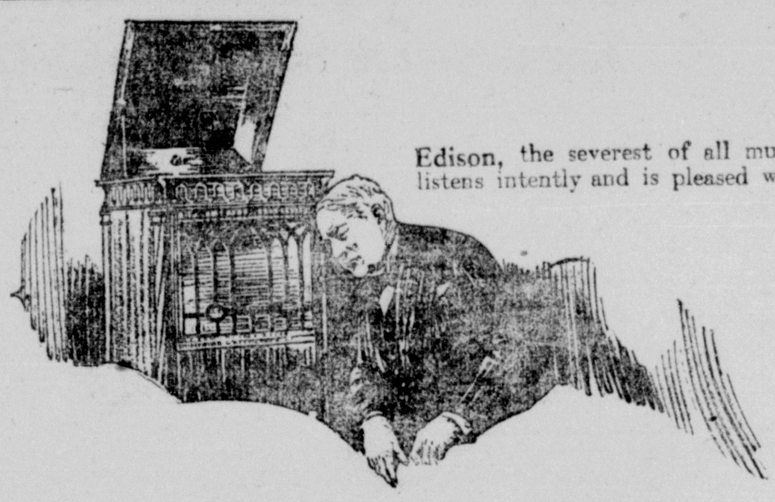
# The NEW EDISON

**Muzio the magnificent;** the enchantress of the Metropolitan; idolized by London, Paris, Madrid, Milan, Buenos Aires and New York—such is Muzio. Behind the mysterious curtain, which screens the recording secrets of Edison, her divine voice is perpetuated, in every phase of its unsurpassed beauty.



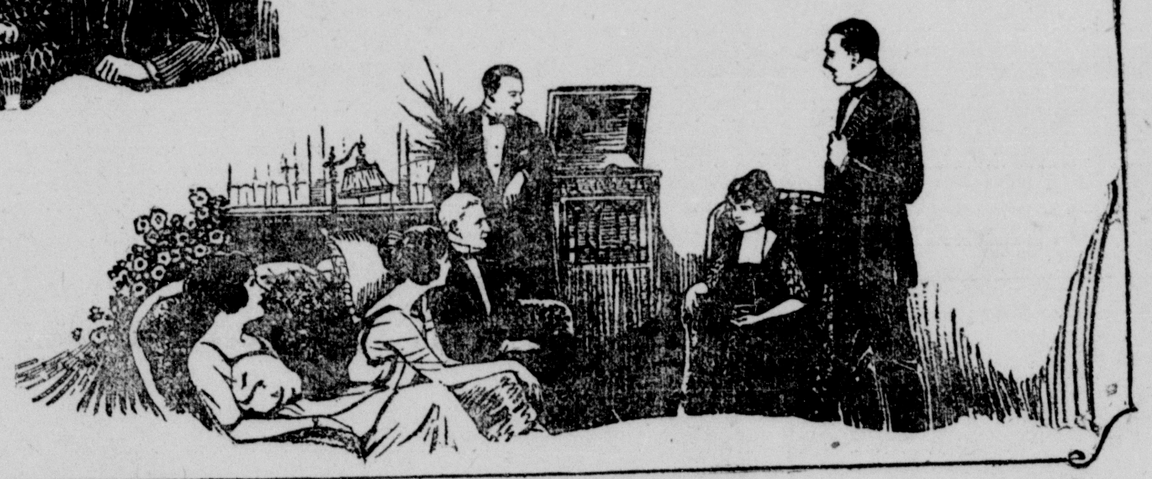
Edison, the severest of all music critics, listens intently and is pleased with Muzio.

**Bamboschek, principal conductor** of the Metropolitan Opera, listened to Muzio sing in comparison with the New Edison's RE-CREATION of her voice, and the following is his signed verdict:

"I have heard a comparison between Miss Claudia Muzio's voice and its RE-CREATION by the New Edison. I consider that the quality of Miss Muzio's living voice and the quality of her RE-CREATED voice are identical."

The New Edison is positively the only phonograph that can sustain the test of direct comparison with living artists.

**In the home,** no matter where that home may be, Edison's new invention gives you the world's best music, just as it is heard in the operatic capitals of both hemispheres. The New Edison is the complete answer to Emerson's wish: "Could I only have music on my own terms, whenever I wished the ablution and inundation of musical waves, that are a bath and a medicine."



# —the above is only half of it!

It proves that the New Edison brings the real artist—and the real opera to your home. It establishes, beyond doubt or conjecture, that the New Edison is the only instrumentality by which the full beauties of true music can be enjoyed in every home. *Now* comes a plan by which you can benefit from good music beyond mere entertainment—*Mood Music.*

## It Banishes Unpleasant Moods!

Mood Music helps you control your mental and physical well-being. It soothes you when you are nervous. Refreshes you when tired. Cheers you when sad. In a 32 page booklet, this wonderful new way of using music is fully described and over 100 selections are classified according to the effects they produce upon a listener. Fill out the coupon and get your copy of the booklet, "Mood Music".

## 3 Days of Mood Music *Free!*

**If you do not own a New Edison, we will gladly loan you one on three days' free trial —so you can learn what Mood Music and the New Edison will do for you.**

***About Mood Music***

Mood Music is the result of a two year research by Mr. Edison into the effects of Music. The psychological work was under the direction of Dr. W. V. Bingham, Director of Applied Psychology, Carnegie Institute of Technology, and other psychologists. The remarkable discoveries, which they made through countless experiments, are now in booklet form for your practical use.
